DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 25th February 1930.

Second Forecast of the Spring Oilseed Crops of Bengal, 1929-30.

NOTE.—On an average of the five years ending 1927-28, the area under Linseed in Bengal has represented some 3·2 per cent. and that under rape and mustard 11·7 per cent. of the total area under these crops in British India.)

Character of season.—As indicated in the first forecast, the sowings commenced generally in the normal time except in parts of North Bengal, where the operations were delayed by heavy rain in October. Subsequently the weather was dry up till the middle of December and this has proved beneficial to the growth of the crops. The rainfall in the latter part of December caused a little injury in some districts, while slight showers in January improved the prospects of late crops. On the whole the season has been a satisfactory one for the Province this year.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued), is returned at 868, 200 acres this year as against 882,700 and 884,300 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates, the average outturn of the different oilseed crops of the Province works out at 85 per cent. of the normal as against 78 and 79 per cent., respectively, in the corresponding and final forecasts of last year.

ROBERT S. FINLOW,
Dir. of Agri., Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 25th February 1930.

Second Forecast of the Wheat Crop of Bengal, 1929-30.

(NOTE.—On an average of the five years ending 1927-28, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1927-28, averaged (*a*) 36·9 and (*b*) 11·4 per cent., respectively.)

Character of the season.—Heavy rainfall in October left sufficient moisture in the soil with the result that more area was brought under cultivation this year. Dry weather up till the middle of December was helpful to the early period of growth. Untimely rainfall at the end of December somewhat affected the prospects in some important districts, while elsewhere the conditions were generally favourable. Slight showers in January helped further development of the crop. On the whole a satisfactory crop is expected for the Province.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 126,200 acres this year as against 122,900 acres both in the corresponding and final forecasts of last year.

Outturn.—The average provincial outturn, as worked out from district estimates, is 84 per cent. of the normal as against 78 and 80 per cent., respectively, in the corresponding and final forecasts of last year.

(a) The capital cost as shown in the previous report has been reduced by Rs. 53,310 owing to the loss of the dredger "Dipper", which was attached to this canal.

3. **The Damodar Canal Project.**—The work in connection with the project which was commenced in 1926-27, was in progress during the year. The total capital expenditure to end of the year 1928-29 amounted to Rs. 22,30,178 against the estimated cost of Rs. 78,14,081. The capital expenditure of Rs. 14,16,333 during the year was mostly incurred on the construction of head works, main canal and branches and on the purchase of special tools and plant. The project has been designed to irrigate about 200,000 acres of land, mostly paddy, in the Burdwan and Hooghly districts. It is hoped the canal will be partially opened in 1931.

4. **The Bakreswar Irrigation Scheme (Birbhum).**—The work in connection with the construction of the Bakreswar canal which was commenced in 1927 was continued. The head weir and the excavation of the main canal in the 3rd, 4th and 6th to 11th miles were practically completed. The total capital expenditure to the end of the year amounted to Rs. 1,89,557 against the

estimated cost of Rs. 4,90,596. The sum spent during the year was Rs. 1,74,904. The scheme when completed will irrigate 10,000 acres of paddy in a tract subject to frequent scarcity.

5. **The Midnapore Canal.**—No capital outlay was incurred during the year on this canal which consists of two weirs at Midnapore and Panskura, 69·75 miles of main and branch canals used both for irrigation and navigation purposes and 284·97 miles of distributaries. The area irrigated was 64,842 acres as against 78,960 acres in the previous year. The decrease in the leased area was due to copious rainfall. The receipts and working expenses were Rs. 2,48,334 and Rs. 1,94,929 respectively, the result being a net revenue of Rs. 53,405 against Rs. 90,916 in the preceding year. The decrease in revenue was due to the decrease in the leased area owing to copious rainfall and also to the falling off in navigation receipts on account of the closure of the canal from Mohanpur to Luchmapur for a fortnight and from Uluberia to Bansberia for three months for the purpose of silt clearance.

6. **The Grand Trunk Canal Project.**—Government decided not to proceed with the construction of the canal for the present. The policy of Government is to maintain the Sunderbans Steamer Route so long as this can be done or until an alternative route has been supplied. The deterioration of the rivers in the Western Sunderbans was however more marked during the year and the situation is becoming increasingly difficult. The Doagra channel was dredged during the year.

7. **The Hijili Tidal Canal.**—This canal with the Terapakia Pass khal, Palaboni khal and the khal leading to the Gewankhali lock entrance, constitutes a navigation canal 49¾ miles in length. No capital expenditure was incurred on the canal during the year. The receipts and working expenses amounted to Rs. 67,498 and Rs. 47,536 respectively, the result being a net revenue of Rs. 19,962 against a deficit of Rs. 2,376 in the previous year. The increase in revenue was due to the good outturn of crops in the locality and to the favourable conditions which obtained for the export of paddy, rice and straw and import of miscellaneous goods.

8. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels for the purpose of maintaining communications between Calcutta and Eastern Bengal. No capital expenditure was incurred on this system of canals during the year. The receipts and working expenses were Rs. 4,80,248 and Rs. 5,52,365 respectively, the result being a deficit of Rs. 72,117 as against Rs. 1,18,364 in the preceding year.

9. **The Sunderbans Steamer Route** is being treated as a separate project from the Calcutta and Eastern canals from the year 1924-25. Receipts on capital account amounted to Rs. 41,839. The revenue receipts and working expenses amounted to Rs. 70,859 and Rs. 2,45,754, the result being a deficit of Rs. 1,74,895 as against Rs. 1,14,467 in the preceding year. The comparatively large deficit was due to heavy working expenses for thorough repairs to dredgers "Foyers" and "Alexandra" attached to this route and for dredging the Doagra channel.

10. **The Madaripur Bil Route** connects the Modhumati and Kumar rivers in the Faridpur district. A capital expenditure of Rs. 3,22,520 (direct only) was incurred during the year on the construction of locks and sluices on the route and the Lower Kumar river. The works are in progress.

The receipts and working expenses were Rs. 3,09,867 and Rs. 4,37,057 respectively, the result being a deficit of Rs. 1,27,190, as against a deficit of Rs. 4,66,521 in the preceding year.

11. **The Nadia Rivers** which comprise an approximate length of 478½ miles of channels were thrown open to free navigation from the 1st September 1923. The maintenance charges amounted to Rs. 59,670 against Rs. 51,252 in the preceding year. The increase was due to the increased expenditure on bandalling works in the Bhagirathi river.

12. **The Orissa Coast Canal** in the Midnapore district is a navigation canal lying partly in this Presidency and partly in the Province of Bihar and Orissa. The receipts and working expenses for the portion within this Province were Rs. 26,838 and Rs. 26,528 respectively, the result being a net revenue of Rs. 310 against a deficit of Rs. 16,129 in the previous year. The increase in receipts was due to the good outturn of crops while the decrease in working expenses was due to the absence of flooding.

13. **The Gaighatta and Buxi Khal.**—The khal is a connecting link of the rivers Rupnarain and Damodar in the Howrah district and is about 7½ miles in length. It has been farmed out at a rental of Rs. 4,110 on condition that the lessees maintain it in good order.

14. **The Eden Canal** in the districts of Burdwan and Hooghly was originally constructed for Sanitary purposes but is now used for irrigation also. It consists of 27·5 miles of main canal and 17·6 miles of distributaries including minor and village channels. At present the supply of water in the canal is precarious owing to the absence of a weir in the river Damodar. This state of things will improve when the Damodar canal which is now under construction is completed. The area irrigated from the canal was 21,353 acres as compared with 23,283 acres in the previous year. The receipts and working expenses were Rs. 44,091 and Rs. 44,284 respectively as against Rs. 50,864 and Rs. 87,217 in the previous year.

15. **Training Works.**—Conservancy operations in the river Ganges from Rajmahal to Goalundo were carried out through the agency of the steamer companies as in the previous year. Training of shoals by means of bandals was also done in the Bhagirathi and Dhalleswari rivers.

16. **Dredging.**—Dredging of shoals was done in the Lower Kumar and Attarobanka rivers. Dredgers were also engaged on behalf of the Bengal Nagpur Railway at the Kola bridge and the Commissioners for the Port of Calcutta on King George's Docks at Garden Reach.

17. **Flushing and Drainage works.**—Works in connection with the flushing of the Gobra Nala in the Murshidabad district and of the Bhairab river in the Meherpur subdivision of the Nadia district which were taken up at Government cost were practically completed during the year. The total expenditure on the two works up to 31st March 1929 was Rs. 2,84,040 and Rs. 1,38,257 respectively, against the sanctioned estimates of Rs. 2,97,079 and Rs. 1,51,358. The cost of these

two schemes has been borne entirely by Government. Enquiries were also in progress in regard to the possibility of dealing with other rivers in the same manner especially in the Jessore district.

The Amirabad drainage project in the Contai subdivision of the Midnapore district was completed and the construction of a three vented sluice at Dhutkhali in the Diamond Harbour subdivision of the 24-Parganas was nearly completed. In connection with the Soadighi Gangakhali project in the Midnapore district the procedure under the Bengal Agricultural and Sanitary Improvement Act, VI of 1920, was completed. The estimated cost of the project is Rs. 8,89,042 out of which Government have agreed to contribute Rs. 4,47,206 and to advance the balance as a loan.

18. **Irrigation works in Western and Northern Bengal.**—The Kashianalla irrigation scheme in the Birbhum district was completed during the year at a total cost of Rs. 9,624. The work was carried out under the provisions of Bengal Agricultural and Sanitary Improvement Act, 1920 and the entire cost was advanced by Government. A scheme for the extension of this work was also approved at an estimated cost of Rs. 27,716 for irrigating an area of about 1,700 acres lying further east and south of the area now commanded. The Satkahonia irrigation scheme in the Burdwan district and the Berai irrigation scheme in the Bankura district which were approved at an estimated cost of Rs. 4,40,183 and Rs. 5,41,103 respectively, during the preceding years, could not be taken up owing to want of funds. The two works have been designed to irrigate about 12,000 and 9,000 acres of land respectively.

Surveys and investigations were carried out in the Damodar division in connection with the Malancha, Saraswati, Satkahonia and Bhaluka irrigation schemes, the proposed construction of a distributary from Chautpore to Joteram and the irrigation project from a sluice on the Ajoy right embankment. In the Bankura, Birbhum and Midnapore districts discharge observations were taken of streams. Surveys were also carried out in these districts in connection with a number of irrigation schemes such as the Darkeswar, Subhankar Danra, Dolong, Thakurpura, More Douki, Kutrangi, Chilki khal, Bhalukhali, Amdole, Bangsabati and Bantia irrigation schemes.

In the Northern districts of the Presidency investigations were continued in connection with the North Bengal floods, Harishchandrapur flood scheme, Tangon valley scheme, Narode river scheme, Tulsi Ganga Danra scheme and Gagna Bil scheme. Some of these schemes, when matured, will be carried out as Government schemes under the Irrigation Act leaving the remaining projects to be undertaken under the provisions of the Bengal Agricultural and Sanitary Improvement Act, VI of 1920.

19. **General.**—The rainfall during the year was heavy but there were no abnormal floods on any of the rivers in Bengal.

The Alipore bridge over the Tolly's Nala collapsed and a temporary bridge to carry foot traffic is under construction pending the construction of a new bridge.

Owing to the silting up of the central lake channel the Dhappa lock was permanently closed to boat traffic from the 15th February 1928.

ORDER.—Ordered that the resolution be published in the "Calcutta Gazette" and a copy thereof and of its accompaniment be submitted to the Government of India in the Department of Industries and Labour (Public Works Branch) and circulated to all departments and officers of this Government as usual.

CALCUTTA, THE 8TH MARCH 1930.

RESOLUTION—No. 936Edn.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

READ—

The Report of the Sanskrit College Committee.

In August 1923, the Government of Bengal appointed a Committee to consider what improvements should be made in the Sanskrit College, Calcutta, in order to increase its efficiency, to consider and advise on the future activities of the Tol Department of the College, and also to report on the present working of the Sanskrit Associations and of the Tols receiving aid from Government, together with suggestions for their improvement. The Committee submitted an interim report in March 1924. Their final report was submitted to Government in October 1926.

2. The task of the Committee was difficult and complicated and Government (Ministry of Education) desire to place on record their appreciation of the arduous work devoted to it by many of their members. They desire specially to mention the late Mr. Bhupendra Nath Basu, the first President of the Committee, who died after the submission of the interim report; Sir Devaprasad Sarvadhikary who succeeded him as President; and Dr. Adityanath Mukherji, who succeeded Mr. E. F. Oaten as Secretary to the Committee on the appointment of the latter as Director of Public Instruction. Government desire also to record with regret the loss which the Committee sustained by the death of Rai Yatindra Nath Chaudhuri before they had completed their labours.

The Report has been considered by Government and the decision arrived at in respect of each chapter is indicated below.

3. In the second Chapter of their final report, which incorporated such portion of the interim report as they, on more detailed consideration, decided to endorse, the Committee, record the fact that the Sanskrit College was established in 1824 "for the preservation and cultivation of the literature religion and laws of the Hindus" and quote from the Report of the Calcutta University Commission the following passage:—"The institution known as the Sanskrit College consists of three Departments (*i*) Anglo-Sanskrit School, (*ii*) Anglo-Sanskrit College, and (*iii*) Tol. Although the avowed purpose of the three Departments is to impart instruction to candidates for the Matriculation Examination, the Intermediate and B. A. Examinations, and Tol Examinations, respectively, the common feature which characterises all the Departments is the intensive cultivation of Sanskrit learning in its diverse phases. This object is achieved by the employment of highly qualified specialists and by the maintenance of a special library of printed books and manuscripts. The institution in substance aims primarily at a unified pursuit of Sanskrit studies from the lowest to the highest grades, although incidentally it prepares candidates for University Examinations. Indeed, this latter may be regarded almost as a secondary purpose."

The Committee then proceed to discuss whether any one of the three Departments of the institution, the college, the school or the tol, could be abolished without detriment to the interests of Sanskrit learning. They record their opinion in the negative. Government concur in this opinion, which is supported both by sentiment and by the recommendations of the Calcutta University Commission.

4. In the 3rd Chapter the Committee give detailed consideration to the Sanskrit Collegiate School. They say that the recognition of the school as a High School has not affected its devotion to specialised Sanskrit study in addition to the ordinary high school curriculum. Such Sanskrit study is compulsory and intensive up to the class below the Matriculation class. They emphasise the special feature of the

school, its devotion to specialised Sanskrit study, and quote the University Commission in support of the preservation of this special feature. Government concur in this view and direct that the new Sanskrit curriculum proposed in appendix I of their report should be followed in the School. Mugdhabodh is the grammar recommended and this is accepted. Variations in this as well as in regard to details of the Sanskrit curriculum may, if found desirable and possible, be allowed by the school authorities with the sanction of the Director of Public Instruction. Government note that the Committee consider a separate Matriculation Examination undesirable. As however it is evidently desirable that full weight should be given to the Special Sanskrit knowledge possessed by the boys of the Sanskrit Collegiate School, Government consider that it would be desirable for the Sanskrit Association to consider the desirability of instituting a special Diploma Examination whereby the additional knowledge of these students might be recognised by means of the award of a Diploma in Sanskrit. Government concur in the recommendation of the Committee that only boys adequately qualified in Sanskrit should be admitted to the school at any stage and orders will issue to this effect. It is considered that admission should be a matter for the Head Master of the School, subject to the general control of the Principal, who may take such measures as he thinks fit to ensure that the orders in this respect are followed. The suggestion of an informal admission Committee will be brought to his notice.

5. The Committee in paragraphs 28 and 29 request the creation of a number of free-studentships in the School in replacement of certain long-standing private donations which have ceased or are paid irregularly and precariously. Government regret the failure of private beneficence and recommend the creation of such donations as a suitable object of private charity. To compensate, however, partially for the failure of private donations in helping the sons of bona fide Pandits studying in the school, Government have sanctioned the creation with effect from the beginning of the session 1930 of 200 part-free-studentships in this school, of Re. 1 each. Two hundred students will therefore be entitled to read in this school by paying a fee of Re. 1 each, irrespective of the class to which he belongs. One hundred of these part-free-studentships should be awarded to students of the bona fide Pandit families, if available. Boys over this number will, however, have to pay the full fees fixed for the class and the free-studentships admissible in schools up to 5 per cent. of the number in the roll will not be available in this school. Government trust that adequate private beneficence will be forthcoming to supplement existing endowments by providing the one rupee payable by the pupils enjoying concession rates.

6. In paragraphs 30 to 42 the Committee emphasise the fact that the object of the College is not only to offer special opportunities for access to the treasures of Sanskrit literature but to provide facilities for the study of Sanskrit side by side with instruction in modern methods and western conceptions. The Sanskrit College aims, and in the opinion of the Committee ought to continue to aim, not only at imparting instruction in pure Sanskrit culture, but also at encouraging a certain degree of non-Sanskrit culture within its precincts by maintaining a special staff for the purpose.

7. The Committee quote with approval the Report of the Calcutta University Commission on the need for developing the Sanskrit College into a constituent College of the University and a vigorous institution for Sanskrit studies, and the Commission's comparison between it and the then proposed Islamic College which has now come into being. In the opinion of Government the comparison would be more justly made between the Sanskrit College and such an institution as the Dacca Madrasah or the Islamic Faculty of Dacca University, where specialisation in oriental learning is attained at some inevitable sacrifice of attainment in general subjects. The point is illustrated by the fact that the recently opened Islamia College is nearly filled with students, taking ordinary University courses, while the Sanskrit College, the Islamic Faculty at Dacca and the Dacca Madrasah Intermediate course attract relatively few, in spite of low fees and numerous concessions. Students recognise that special depth in oriental learning must normally and inevitably, imply some sacrifice of proficiency in general studies and, believing the latter to be economically more valuable, are not always willing to make the sacrifice required. Whatever the future may have in store in relation to these attempts at combining great depth of study in oriental language and literature with general University subjects, experience seems to point to the fact that the

special Oriental courses must be integrated with the University system if they are to attract students other than those induced to undertake them by special concessions. This has already been achieved in relation to the special Islamic courses, and their ultimate success is not doubtful. Government, while drawing attention to these considerations, express their concurrence in the desirability of the development of the Sanskrit College into a constituent College of the University and a vigorous institution for Sanskrit studies, but are compelled to point out that the University Commission made the basic postulate of its recommendations the inauguration of a system of intercollegiate co-operation. This is illustrated by its proposal that the University Chair in Sanskrit and Sanskritic subjects might fittingly be attached to the Sanskrit College. These aims are unattainable except as part of a new synthesis of the colleges with the University of the kind proposed by the Commission, but the basis of the proposed new synthesis was the "bringing to an end the isolation of the Colleges" as well as the artificial severance of higher and lower work. Government are therefore of opinion that a full development of the Sanskrit College on the lines contemplated by the Commission and obviously desired by the Committee can only come as part of a scheme of general University reform, including co-operation between the college and the University, as well as with other colleges including Presidency College. The natural objective of the Sanskrit College is to become a real centre of Sanskrit learning, but so long as the present teaching department of the University cherishes a similar aim, and is not able to make the Sanskrit College the centre and home of recognised University studies in Sanskrit, in fact to constitute it, after reorganisation, as the University Department of Sanskrit learning, the full aim of the Committee is unlikely to be realised. Such recognition, whatever the advantages or disadvantages, is unlikely to be attainable until the concomitant recommendation of the Commission that the college shall cease to be a Government institution is realised, but the Committee make no recommendation of this kind and obviously did not consider the point.

8. Government agree with the Committee that the students of the Sanskrit College should have as wide a range of non-Sanskritic subjects to choose from as possible. The Committee recognise, however, that the number of subjects provided in the college must be limited—they exclude science as impossible—and recommend six, viz., English, Sanskrit, Bengali, History, Mathematics, Logic and Philosophy in addition to Mathematics and Economics if and when funds permit.

9. The main question for decision is how far the provision for teaching these subjects should be made in the college itself, and how far the cost can be minimised by a system of co-operation with Presidency College. The extent of such possible co-operation is somewhat limited and it is realised that the Presidency College Governing Body held out little hopes of assistance. It is, however, a fact that such co-operation actually exists now in History and Philosophy Honours; and no difficulty has arisen. Government are informed that the Presidency College could, if necessary, admit 10 Honours students from the Sanskrit College to its lectures in Economics, 12 in Philosophy, 10 in History and 6 in Mathematics. Without endorsing in its precise form the view stated in the note of dissent recorded by the late Rai Yatindra Nath Chaudhury, Government are of opinion that, at least for Honours work, other than in Sanskrit, existing requirements can be met for some time to come by co-operation with Presidency College and that no special staff should be maintained in the abovementioned subjects at the Sanskrit College. If and when numbers increase, the case might need reconsideration. In regard to other subjects Government are of opinion that for the adequate conduct of work in the Sanskrit College it is necessary to add the following posts and will be prepared to do so when funds permit:—

(1) One B. E. S. post in Sanskrit.

(2) One S. E. S. lectureship in English.

(3) One S. E. S. post in Mathematics on a temporary basis for 3 years to enable the affiliation of the college to be extended up to the B. A. standard.

It will also be necessary to retain the present lectureship in History instead of abolishing the post, as previously ordered. On the other hand, one B. E. S. lectureship in English will, at the earliest opportunity, be reduced to the S. E. S. status.

10. In paragraphs 43 to 46 the Committee discuss the Special Sanskrit Course taught in the college, and suggest a suitable curriculum in Appendix II of their report. This will be sanctioned and introduced.

It is stated that the special Sanskrit Course recommended for the College by the Committee has relation to existing conditions. Government cannot refrain from expressing the opinion that existing conditions, under which, as stated by the Committee, the Special Sanskrit Course is studied for two years only out of the four under-graduate years, are unsatisfactory and defeat the whole object of the college which is or should be to produce scholars deeply read in Sanskirt with sufficient general knowledge to bring them into the general current of modern life and knowledge. What appears to be a possible development, though it is not recommended by the Committee, is a special Intermediate and Graduate Course recognised by the University and Government (it might be called Intermediate, Sanskritic Studies and the Bachelor of Sanskritic Studies Examination) in which while very considerable emphasis is laid on Sanskritic Studies, sufficient general subjects are included to ensure that the examination is an adequate test not only of the special Sanskrit knowledge of the students but of general culture. In fact courses analogous to the courses in Islamic Studies at Dacca seem to be what is required and Government propose to refer the possibility of such a development to the University of Calcutta. Existing conditions under which, the special study of Sanskrit is undertaken for two years only out of four during the student's college life are obviously unsatisfactory, and need modification. The Committee suggest that it may become possible to relate the special course to the Intermediate and B. A. Examinations, but the more definite development of a special examination, recognised by the University, seems another possible way out of the present unsatisfactory position. It seems impossible to maintain that the study of a subject is "intensive" as stated by the Committee, when a student does not pursue the study for more than two years during his under-graduate career.

11. In present circumstances Government agree with the Committee that it will be unwise to restrict a student to Honours in Sanskrit. They will in addition to the suggestion mentioned above bring to the notice of the University the suggestion that two subjects might be permitted as Honours subjects to students of the College one of them being Sanskrit.

12. Government take note of the desire of the Committee expressed in paragraph 47 that affiliation in M. A. Sanskrit should be restored to the college and adequate provision made for such affiliation. Government foresee many difficulties in the way of such development and make the observation that the proposal runs counter to present University policy.

13. The only immediate action possible is the adoption of a policy of attaching students, who have graduated from the college, to the institution during the course of their M. A. work, as is done in the case of the Presidency College, and the development, as accommodation and teaching facilities permit, of a system of "extra-mural" Sanskrit M. A. teaching in the college, so far as the University Regulations may permit such teaching from time to time. This policy may prepare the way for the assumption of such greater responsibilities as may in due course, should University development move in this direction, fall to the college in respect of post-graduate work. Government, however, see no possibility of allotting funds for this policy, except as part of a general scheme of University reorganisation.

14. Government agree with the proposal of the Committee that no student not properly equipped in Sanskrit should be admitted to the college and will communicate this decision to the proper authorities.

15. In regard to paragraph 49 of the report Government note that the majority of the Committee consider that the Principal of the Sanskrit College should always be an orthodox Brahmin. Government are unable to agree to any such limitation. The weighty notes of dissent on the subject put in by the President of the Committee and others make it clear that there has never been any such limitation and that non-Brahmins have actually held the post in the past. Such a limitation would be an innovation on past practice and Government therefore must reserve the right which they have hitherto never relaxed of appointing any qualified scholar to the Principalship of the Institution. They endorse the view of the Committee that adequate administrative ability must be insisted upon in the Principal. An equally important desideratum is a high degree of Sanskrit Scholarship, and it is important that the Principal should have been trained both in the indigenous and western method of Sanskrit Scholarship. It is realised, however, that the combination required will not always be easy to find

in future. Government agree that the Principal should be drawn from, or on appointment included, in the Indian Educational Service or such superior service as they may create in its place.

16. In paragraphs 50 to 58 the Committee recommend that the Oriental or Tol Department be developed into a model for the numerous other tols of the Province. At the time the Committee were appointed, the Tol had sunk in seven years from 114 to 42 in number, and Government were informed that it was on the way to becoming moribund. It seemed extremely doubtful whether either sentiment or necessity demanded its continuance, the average attendance in some classes being less than one daily. Government accordingly made certain immediate retrenchments and requested the Committee to enquire and make recommendations regarding the future of the tol.

17. Subsequent to the retrenchment the subjects taught in the tol are Smriti, Nyaya, Panini and Vedanta. There are two teachers each of Smriti and Nyaya, and one each for Panini and Vedanta. Of these all are in the S. E. S. except one B. E. S. teacher of Smriti.

18. The Committee, with a view to making the tol a model one, propose to add to these subjects—(*a*) Kavya, Alankara and Vyakarana, (*b*) Sankhya and Yoga, (*c*) Veda, (*d*) Mimansa and (*e*) Jyotish. There are to be in all 12 teachers, each on Rs. 250 a month with Rs. 50 in lieu of quarters. The total cost of the staff will be Rs. 43,200 annually, against which is to be set the average cost of the present staff of six, i.e., Rs. 21,659.

19. Government are prepared to accept the idea of making the Sanskrit College tol a model tol, and agree that the proposed staff is suitable for the attainment of this object. A steady increase has taken place in the numbers attending the tol since 1924, in spite of the reduction of the number of subjects, and Government are prepared gradually to add to the number of subjects taught in the tol. They are unable however to contemplate any proposal to put into effect the whole programme at once, but will be prepared to add a subject from time to time as funds and the available accommodation permit.

20. The Committee point out the fact that tol students come from poor Pandit families and urge that Government should provide subsistence allowances of Rs. 15 per mensem each to the number of 100. The cost of this proposal is Rs. 18,000 a year. Government do not agree that tol education should be supported and financed in its entirety from the resources of the State, including the actual feeding of the students who take advantage of it. Government provide a building, a library, a staff of teachers and a certain number of stipends, and admit students to the tol entirely without tuition fees. At this point, it is a reasonable contention that the State has fulfilled its obligations, and that if students are not forthcoming the State ought not to be called upon to persuade them by subsistence allowances to undertake these studies. Government regret their inability to accept the recommendation of the Committee regarding the provision of subsistence allowances of Rs. 15 per mensem to the number of 100 or to increase the value of the stipends paid from the Nistarini Dassi Fund. They are of opinion that private benevolence should supply the proposed stipends and supplement, if necessary, the resources of the Nistarini Dassi Fund.

21. The Committee propose in paragraphs 55 to 57 to revive the custom of public debates, prizes being awarded to the successful disputants. A budget grant of Rs. 500 is recommended as a prize grant. Government will be prepared to give effect to this recommendation when funds permit.

22. The Committee also recommend the staging of Sanskrit plays. Government agree with the proposal, but consider the cost should be met from public benevolence.

23. The Sanskrit College Library consists of more than 20,000 printed books and about 3,800 manuscripts. It has, therefore, rather more than half the number of books in the Presidency College Library, which is managed by a staff of four. The Sanskrit College has a staff of two. Government are prepared to accept the position that the Sanskrit College Library is in many respects unique in character and that the existence of a large number of rare and fragile manuscripts constitutes a case for special consideration of the staff required. They are unable, however, to accept the proposals of the Committee in regard to the Library. The Committee propose that the pay of the Librarian should be increased considerably above the existing scale. Government

do not consider that any revision of the Librarian's pay is called for as the pay was raised in 1921 and is in conformity with scales sanctioned for college libraries in Calcutta with the exception of that of the Presidency College. There is equally no case for raising the pay of the Assistant Librarian which was similarly raised in 1921. In view, however, of the special work which falls upon the Library staff, Government will make an endeavour to appoint a Second Assistant Librarian and to develop the manuscript side of the Sanskrit College Library when funds permit.

24. In paragraphs 62 to 64 the Committee recommend a common Governing Body working through sub-committees for the three Departments of the Sanskrit College. The Sadler Commission recommended that there should be three separate bodies for the three Departments with a preponderating element of common members. Government consider that the Sadler Commission's proposal meets the case adequately, but they will be prepared to put the Committee's proposals into force for an experimental period, provided the University agree to the proposed arrangement. It will probably be necessary for the sub-committees to have added members who are not members of the main Committee.

25. In paragraph 65 the Committee recommend an increase in the pay of the second clerk. No case, however, appears to have been made out for this increase in expenditure. The pay of the post is the same as that fixed for other similar posts in Calcutta. The case for a typist has also not been made out.

26. In paragraphs 67 to 70, the Committee propose some additions to the existing accommodation of the college and recommend residential facilities for the teachers and pupils of the Tol Department, and for the students of the college. The possibility of additional accommodation for the library and the classes of the Tol Department will be examined, but Government are not satisfied that there is as yet any demand for the residential facilities recommended by the Committee.

27. In paragraphs 76 to 80 the Committee propose a new constitution for the Sanskrit Association, as the present constitution has never functioned in its entirety. Thus the Convocation of 500 members has never met. The Committee propose a system of local Samajes and Associations sending representatives to a Central Organisation which shall elect a Council of ten. Government are prepared to accept the recommendations under this head with three modifications, viz.—

(1) they consider that the Central Organisation should be elected for three, and not for five years;

(2) that it should normally meet only once a year; and

(3) that out of the 10 members of the Council other than the President and Secretary, 4 shall be nominated by Government.

The remaining 6 members should be elected to represent the 5 divisions of Bengal plus Calcutta as a separate constituency. They also consider the Principal's allowance attached to the headship of the Sanskrit College to be adequate remuneration for his extra duties in connection with the Secretaryship of the Sanskrit Association. Government agree that the Dacca Saraswat Samaj may be allowed to continue its independent existence as an affiliating and examining body so long as its work maintains its present high standard and it attracts public support, but its activities should be limited to the Eastern Bengal districts, where it will have co-extensive jurisdiction with the Central Organisation. The proposal of the Committee with regard to the Central Organisation will be brought into force as soon as necessary funds can be provided by Government.

28. In paragraph 83, the Committee recommend that 500 tols throughout the province should be selected on the ground of efficiency for an average monthly grant of Rs. 10 each. There is nothing in the Committee's report to show how the figure 500 has been arrived at. The proposal involves considerable increase in the grant-in-aid to tols. Government are prepared to examine any detailed proposal for additional grants which may be submitted by the Sanskrit Association and suggest that, as part of such proposals, conditions of efficiency, which a tol receiving aid must reach, should be prescribed.

29. In paragraph 83 (2) the Committee recommend an all round increase of Rs. 2 per month for teachers whose students are successful in the Adya and Madhya examinations. This appears reasonable, and

Government will increase the value of stipends when funds permit, but the case for increase in the lump grants to teachers in connection with the Title Examination is not convincing, the sums paid now, viz., Rs. 200, Rs. 100 and Rs. 50, being considered by Government adequate.

30. The Committee consider that the number of stipends payable to teachers should be increased. At present there are 84 stipends and 1,317 tols, i.e., one stipend for about 15 tols on an average. The proportion is not unusually low if the competitive character of the stipends is to be maintained, and in view of the many other demands made upon the State, Government are of opinion that private benevolence should be called upon if the number is to be increased.

31. For pupils' stipends on the result of the first and second examinations, the existing rates vary from Rs. 2 per month to Rs. 4 per month. Government consider that these may reasonably be raised by Rs. 2 per month as soon as financial conditions permit. The rewards for success in the Title Examination are substantial—Rs. 100, Rs. 50, Rs. 25 and Rs. 20, and do not appear to require raising. The case for increasing the number of pupils' stipends is also not convincing. Assuming that 6,500 students sit for the examination and 50 per cent. pass, the number of stipends now available represents 1 in 30 passes, which is reasonably generous. It is again for private benevolence to add to the number if this is considered desirable. The increasing claims in respect of education upon the State make it impossible for Government to assume the whole burden of improvement in the matter of Sanskrit education of the indigenous type, though Government are not oblivious of the tradition of public support which has prevailed in the past.

32. In paragraph 84 the Committee recommend an enhanced rate of remuneration for setting papers and examining examination papers. Government realise the force of the case for enhancement and are prepared to accept the rates proposed. They, however, consider it to be a reasonable proposition that public examinations should be self-supporting. This could be achieved if the fees payable for examination were raised. Such increase in fee-rates is justified by the same economic consideration as justify the proposed enhanced rates of remuneration. Government, therefore, consider that a corollary to the Committee's proposal regarding remuneration of examiners is an increase in fees for examination, and Government await definite proposals in this regard from the Sanskrit Association.

33. In paragraph 85 the Committee propose the creation of special scholarships for the encouragement of Naya, Smriti, Darshana and Panini, 40 in all, to be awarded by the proposed new Council. The proposal is set out in insufficient detail for examination and Government will await specific proposals from the Sanskrit Association.

34. In paragraph 86 the Committee propose the creation of 25 literary pensions of a monthly value of between Rs. 15 and Rs. 25. Government are of opinion that it is not possible to give special treatment in the matter of literary pensions to one branch of learning only, and consider that the grant of any such pensions to Pandits must be dealt with under the ordinary procedure.

35. In paragraphs 87 to 88 the Committee make recommendations for the creation of 30 stipendiary Chairs to be created in various Model Tols throughout the Province, the stipends attached to these to range in value from Rs. 50 to Rs. 100 a month. Fifteen institutions are to be selected as Central Institutions and one or more Adhyapakas, holding Chairs, will be assigned to each. Three hundred pupils of these Adhyapakas are to be given allowances of Rs. 10 each. The Central institutions are each to be equipped with a library, subsidised by an initial capital grant of Rs. 200 and a recurring grant of Rs. 240. The total cost of the proposal is over Rs. 60,000 annually. Government while recognising that these proposals would greatly encourage Sanskrit learning in Bengal, cannot but emphasise the fact that they can only assist private effort in the direction of developments of this nature but they cannot assume the whole burden as proposed by the Committee.

36. In paragraph 89 of their report the Committee have recommended that there should be a preliminary examination on the curriculum shown in Appendix III covering an elementary course of Grammar and literature. The Adya Examination in Vyakarana should then be abolished; the Madhya and Upadhi Courses in

Vyakarana and the three Courses in Kavya should then be made more exacting. The general direction which the curricula for the different examinations should follow is given in Appendix III of the report. These matters primarily concern the Calcutta Sanskrit Association and Government will bring them to the notice of that Association for appropriate action.

37. In paragraph 90 the Committee propose the creation of Research Scholarships of Rs. 75 or Rs. 100 per month in connection with Sanskrit studies, to be awarded on the recommendations of an ad hoc Board. Government at present award annually three research scholarships of Rs. 100 per month. They will be prepared to create one more scholarship for research in Sanskritic subjects when funds are available. They are doubtful of the merits of the proposed rules for the control of the scholarship; but this matter will be settled after further discussion when funds become available. Publication of the scholars' work must, however, be left to learned societies, and not to Government as proposed by the Committee.

38. In paragraph 91 the Committee propose to appoint two special Inspectors for tols, their inspections being confined to certain prescribed points. When the increase in expenditure on tol education contemplated by the Committee has been financed, the proposal for special Inspectors may be considered. At present, there appears to be no case for such appointments. There will be a Hindu Inspector on each local Samaj, and the ordinary inspecting staff of the department will for some time to come be able to report on the points on which the Association desire information.

39. In paragraph 92 proposals are put forward for the revision of the staff of the Sanskrit Association office. This involves an increase in expenditure from Rs. 3,356 to Rs. 15,319. Government are doubtful of the possibility of granting so large a sum as Rs. 300 a month as allowance for the Secretary and consider that if the amount of work involved is such as to justify an allowance of this size the creation of a separate whole-time post would better meet the case. Government recognise that increased staff may be necessary, but they have no facts before them to show what amount of extra work will be involved by the changes proposed. They will, therefore, consider the question of increased office staff and allowance to the Secretary in connection with the working out of the detailed orders necessary to bring the new organisation of the Association into being. The staff proposed, as well as their pay, seem prima facie excessive and will need careful scrutiny.

40. In concluding the Resolution the Government of Bengal in the Ministry of Education desire to make it clear that the carrying into effect of those proposals of the Committee, which have been accepted in the resolution, is, when new expenditure is involved conditional upon favourable financial conditions, and that except in one or two cases of extreme urgency the proposals cannot enjoy priority as regards selection for budget provision over the many other schemes of educational advance which have been approved and are waiting for funds.

ORDER—Ordered, that the resolution be published in the "Calcutta Gazette" and that copies be forwarded for information to the Director of Public Instruction, Bengal; the Finance Department of this Government; and the Accountant-General, Bengal.

By order of the Government of Bengal,

(Ministry of Education),

A. J. DASH,

Secretary to the Government of Bengal.

36. No motor vehicle shall be allowed to stand in any street or other public place so as to cause obstruction.

Motor vehicles not to be left unattended.

37. No motor vehicle shall be allowed to stand in any street or other public place unless it is attended by a person holding a subsisting licence granted under rule 24, except when the mechanism of such vehicle has been stopped.

Motor cars travelling backwards.

38. The driver of a motor car shall not cause the car to travel backwards for a greater distance or time than is consistent with the public safety.

Emission of smoke or vapour.

39. (*1*) No person shall cause or permit the emission of smoke or visible vapour from a motor vehicle in such quantity as to cause annoyance or danger to the public.

(*2*) No driver of a motor vehicle shall use any cut-out, fitting or other apparatus or device which will allow the exhaust gases from the engine of the motor car to escape into the atmosphere without first passing through a silencer, expansion chamber or other contrivance suitable and sufficient for reducing as far as may reasonably be practicable the noise which would otherwise be caused by the escape of the said gases.

Compliance with directions of police.

40. The person in charge of a motor vehicle shall obey all directions of police-officers in uniform posted or stationed at crossings or other places for the regulation of traffic.

41. (*1*) No motor vehicle shall be driven at a greater speed than—

(*a*) (*i*) 20 miles an hour—in the case of a light motor car or motor cycle or motor omnibus if all the wheels of such vehicle are fitted with pneumatic tyres,

(*ii*) 15 miles an hour—in the case of a heavy motor car if all the wheels of such vehicle are fitted with pneumatic tyres,

(*b*) 12 miles an hour—in the case of a heavy motor car (not being a motor omnibus) if all the wheels of such vehicle are fitted with soft or elastic tyres other than pneumatic tyres:

Provided that if the axle-weight of the axle of a heavy motor car exceeds six tons in weight or if it draws a trailer the speed of such heavy motor car shall not exceed 8 miles an hour.

(*2*) The provisions of this rule shall not apply to such motor vehicles as may be specially exempted by the Local Government in this behalf by a notification in the *Calcutta Gazette*.

Erection or removal of notices.

42. (*1*) Under section 12 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Commissioner shall have power to erect such traffic notices as he considers necessary.

(*2*) The Commissioner shall also have power to remove or cause to be removed any notices regarding traffic which in his opinion are unnecessary or unsatisfactory.

(*3*) Such traffic notices shall be printed in white letters not less than 3 inches high on a signal red ground. Speed limits shall be indicated on such notices in figures not less than 3 inches high.

(*4*) Such notices shall be placed on the left side of the road for a driver approaching the place to which they refer.

(*5*) Such signals shall be posted as nearly as may be at a distance of 75 yards from the obstructions which they are meant to point out. In cases where this is impracticable there shall be affixed immediately below the caution plate a plate showing in white letters 3 inches high on a red ground the distance in yards between the signal and the obstruction.

(*6*) Danger signals shall be displayed by means of the conventional signs in white on a red equilateral triangle with a base of 24 inches.

(*7*) Maximum speed limits shall be displayed in white on a red rectangular plate 24 inches long by 8 inches high.

(*8*) Other road signs shall be displayed in white on a red disc with a diameter of 24 inches.

(*9*) All the above signs shall have a rectangular plate 24 inches by 8 inches bearing the words "caution" in red letters on a white ground fixed 6 inches below the plate displaying the sign.

Stopping of vehicles.

43. (*1*) The person in charge of a motor vehicle shall cause the vehicle to stop and to remain stationary so long as may reasonably be necessary—

(*a*) when requested to do so by any police-officer in uniform, for the purpose of regulating traffic or of ascertaining the name and address of such person, or for any other reasonable purpose, or

(*b*) when requested to do so by any person having charge of a restive horse, or

(*c*) when the presence of the vehicle has caused an accident to any person or to any animal or vehicle in charge of any person.

(*2*) The request referred to in clauses (*a*) and (*b*) of sub-rule (*1*) may be made by such police-officer or person putting up his hand as a signal to stop, or at night in such manner as the Commissioner may direct.

(*3*) The person in charge of a motor vehicle, on the request of any police-officer in uniform, or on the occurrence of an accident such as is referred to in clause (*c*) of sub-rule (*1*) on the reasonable request of any other person, shall produce his licence for inspection and

(*a*) truly state his name and address, and the name, place of abode and business of the owner of the vehicle, and

(*b*) give all possible immediate assistance to any person injured by any such accident and, if necessary, help in conveying him to a hospital,

(*c*) and if there is no person capable or in a position to require him to give his name and address, report the accident within twenty-four hours of the occurrence thereof at the nearest police-station.

Conditions of driving or using.

44. No person shall drive or have charge of, or cause or permit to be used, any motor vehicle or trailer—

(*a*) which does not in all respects conform to these rules, or

(*b*) which is so driven or used as to contravene any of these rules, or

(*c*) without the permission or consent of the owner.

Registers to be maintained by dealers or manufacturers.

45. (*1*) Every manufacturer, or dealer, shall maintain a register containing the following particulars with respect to every motor vehicle using a general number which leaves his premises, namely,—

(*a*) the date and time when the vehicle goes out,

(*b*) the name and licence number of the person in charge thereof,

(*c*) the purpose for which the vehicle is sent out,

(*d*) the date and time of the return of the vehicle to the premises, and

(*e*) the distinguishing number and letter or letters affixed to the vehicle.

(*2*) The said register shall be in such form as the Commissioner may from time to time prescribe, and shall be open at all reasonable times to the inspection of the Commissioner or any person duly authorised by him in writing in this behalf or any other competent authority.

Supply of information concerning drivers.

46. Every owner, or in the case of a motor vehicle let out on private hire, every person hiring such vehicle, shall give such information as may be required by or on behalf of the Commissioner as to the identity of the driver who is alleged to be guilty of an offence under the Act or the rules and if he fails to do so, shall be guilty of an offence, unless he shows to the satisfaction of the Court that he did not know and could not with reasonable diligence have ascertained who the driver was.

Supply of information regarding driving licences or registered motor vehicles.

47. A certified copy of the particulars entered in the registers of driving licences and registered motor vehicles shall be furnished to every person applying for the same on payment of a fee of eight annas in respect of each licence or registered motor vehicle.

Part III.

The provisions of this Part unless otherwise stated shall apply to all heavy motor cars inclusive of motor lorries of over 2 tons unladen weight, to all motor omnibuses unless otherwise provided for in Part IV of the rules and to all tractors.

Additional rules regarding registration.

48. (*1*) For the purpose of the registration of heavy motor cars—

(*a*) the register of such vehicles shall be maintained in Form H, appended to these rules, and

(*b*) the application for the registration of such vehicles shall be made in Form I appended to these rules.

(*2*) Before a heavy motor car is registered, the weight of the car when unladen, and if the Commissioner so directs, the axle-weight of each axle of the car, shall be ascertained by or in the presence of an officer appointed in this behalf by the Commissioner.

(*3*) The said officer shall certify the weights or weight so ascertained and shall make any necessary correction in the statement of weights declared by the owner.

(*4*) The owner of the car shall, for the purposes of sub-rules (*2*) and (*3*) of this rule, cause the car to be driven or brought to any such place as the Commissioner may appoint.

(*5*) Upon the registration of a heavy motor car—

(*a*) the weight of the car when unladen, as certified under sub-rule (*2*) of this rule,

(*b*) the axle-weight of each axle as so certified, or (if not so certified) as declared by the owner of the car,

(*c*) the diameter of each wheel,

(*d*) the width and material of the tyre of each wheel, and

(*e*) the highest rate of speed at which, in conformity with rule 41 the car may be driven,

shall be entered in the register of motor vehicles.

Marking.

49. (*1*) Upon receiving from the Commissioner a copy of the entries made in the register relating to a heavy motor car, the owner of the car shall cause to be painted or otherwise plainly marked in a conspicuous place—

(*a*) on the right or off-side of the car—

(*i*) the registered weight of the car when unladen, and

(*ii*) the registered axle-weight of each axle, and

(*b*) on the left or near side of the car—

(*i*) the highest rate of speed at which, in conformity with rule 41, the car may be driven, and

(*ii*) the owner's name and address.

(*2*) The said marking shall be made in letters and figures not less than one inch in height and of such shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made.

(*3*) The owner of the car shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary, to keep the letters and figures clearly legible and clearly distinguishable.

Fresh registration or certification of vehicles registered under former rules.

50. (*1*) Notwithstanding anything contained in rule 4 (*1*), the owner of every heavy motor car registered in any province other than Bengal, under the Motor Vehicles Act of that province or under rules framed in that province under the Indian Motor Vehicles Act, 1914 (VIII of 1914), and brought into Calcutta or Howrah after the 1st April 1915, must, before the vehicle is brought into use in Calcutta, or Howrah, either—

(*a*) apply to the Commissioner for the registration of the car under these rules, or

(*b*) cause the car to be taken to the Commissioner, or to an officer appointed by him in this behalf, for the purpose of obtaining a certificate showing that the provisions of rules 48 and 49 have been sufficiently complied with in respect of the car.

(*2*) If the Commissioner or the said officer is satisfied that the provisions of rules 48 and 49 have been sufficiently complied with in respect of a car brought to him under either clause (*a*) or (*b*) of sub-rule (*1*), he may grant a certificate to that effect, and thereupon the car shall be deemed to have been registered under these rules, and the Commissioner shall cause to be made in the register of motor cars such entries in respect of the car as are required by clause (*b*) of rule 48 (*1*).

Until it has been registered under these rules, or the certificate referred to in sub-rule (*2*) has been obtained, no heavy motor car shall be used, except for the purpose of being taken to be registered or examined for the purposes of sub-rule (*1*) or (*2*) of this rule.

Axle-weights.

51. (*1*) The axle-weight of a heavy motor car shall not exceed the registered axle-weight.

(*2*) The registered axle-weight of an axle of a heavy motor car shall not exceed eight tons, and the sum of the registered axle-weights of all the axles of a heavy motor car shall not exceed twelve tons:

Provided that if a heavy motor car—

(*a*) draws a trailer which is so partially superimposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, or

(*b*) is provided with six road wheels mounted on three separate axles under a rigid frame and that the distance between the middle axle and the rear axle is not greater than 4 ft. 6 inches and is not less than the exterior diameter of the tyre of the largest wheel,

the sum of the registered axle-weights shall not exceed sixteen tons; or

(*c*) is provided with six road wheels of which two are mounted on the front axle and four on the rear axle, the latter wheels on each side being mounted one in front of and one behind the axle, the registered axle-weight on the rear axle shall not exceed 12 tons and the sum of the registered axle-weights shall not exceed 16 tons,

Tyres.

52. No heavy motor car shall be licensed unless the car is fitted with pneumatic or resilient tyres of a soft and elastic material on all wheels:

Provided that the Commissioner may, for special reasons to be recorded in writing, permit non-resilient tyres if he is satisfied that their width and diameter is such that the vehicle will not damage road surfaces:

Provided, further, that the Commissioner may prohibit the use of non-resilient tyres if portions have broken off or become loose to such an extent as to affect smooth running of the vehicle.

Length.

53. The maximum overall length of a heavy motor car measured from the dumb irons or if there are no dumb irons from the foremost part of the vehicle exclusive of the starting handle must not exceed twenty-seven feet six inches in the case of a four wheeled vehicle, and thirty feet in the case of a rigid frame six wheeled vehicle:

Provided that if a heavy motor car draws a trailer which is so partially imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the maximum overall length of the heavy motor car and the trailer so attached shall not exceed thirty-three feet.

Overhang of a heavy motor car.

54. The overhang of a heavy motor car shall not exceed—

(*a*) in the case of a heavy motor car not being a tractor, seven twenty-fourths of the overall length of the heavy motor car and

(*b*) in the case of a heavy motor car being a tractor, six feet.

For the purposes of this rule the expression "overhang" means the distance measured horizontally and parallel to the longitudinal axis of the heavy motor car between two vertical planes at right angles to such axis, the one passing through that point of the heavy motor car (exclusive of any hood when down) which projects furthest to the rear and the other passing—

(*i*) in the case of a heavy motor car having two axles, one of which is not a steering axle, through the centre point of that axle, and

(*ii*) in the case of a heavy motor car having three axles,

(*a*) where the front axle is the only steering axle, through a point four inches in rear of the centre of a straight line joining the centre points of the rear and middle axles, and

(*b*) where the rear axle is the only steering axle, through the centre point of the middle axle, and

(*c*) where all the axles but one are steering axles, through the centre point of the rearmost axle which is not a steering axle, and

(*iii*) in the case of a heavy motor car (whether having two axles or having three axles) where all the axles are steering axles, through a point situated on the longitudinal axis of the vehicle and such that a line drawn from it at right angles to that axis will pass through the centre of the minimum turning circle of the vehicle.

Brakes of heavy motor cars.

The following provisions shall have effect in substitution of the provisions of Part II of these rules which relate to brakes.

55. (*a*) Every heavy motor car shall be fitted with at least two independent brakes in good and efficient working order and of such design and efficiency that the application of either will even under the most adverse conditions cause all the wheels of the heavy motor

car other than the wheels of the front axle or, in the case of a heavy motor car having two axles only of which the rear axle is the steering axle, other than the wheels of the rear axle to be so held that they shall be effectually prevented from revolving or shall have the same effect in stopping the heavy motor car as if such wheels were so held;

Provided, nevertheless, that in the case of a heavy motor car which is propelled by steam and which is not used as a stage carriage or for the conveyance of passengers for gain or hire the engine of such heavy motor car shall be deemed to be one brake if such engine is capable of being reversed and is incapable of being disconnected from all the road wheels or all the axles other than the front wheels or axle except by the sustained effort of the driver and in the case of a vehicle with more than two axles there is no differential driving gear or similar mechanism between any two of the axles.

(*b*) At least one of the brakes must act on all the wheels required by clause (*a*) of this rule to be held as therein provided directly and not through the transmission gear;

Provided that where the heavy motor car has three axles and the drive is applied to two axles other than the front axle without the inter-position of a differential driving gear or similar mechanism between such two axles it shall be deemed to be a sufficient compliance with this clause if one brake acts directly on the wheels attached to one axle and the other brake acts directly on the wheels attached to the other axle.

(*c*) Brakes shall not be deemed independent as aforesaid which are so constructed that the failure of any part of the mechanism operating one brake shall adversely affect the operation of the other brake, but so nevertheless that the brake drum may be common to the two brakes.

Use of heavy motor cars upon bridges.

56. When any authority who is liable for the repair of a bridge affixes or sets up in suitable and conspicuous positions on the bridge and on each approach to the bridge notices stating that the bridge is insufficient to carry a heavy motor car, the registered axle-weight of any axle of which exceeds such weight as may be specified in such notices, the owner of any such car shall not cause or suffer the car to be driven and the person driving or in charge of any such car shall not drive the car upon the bridge.

Maidan roads.

57. No heavy motor car, except conservancy motor cars belonging to the Corporation of Calcutta or the Public Works Department, Bengal, Fire Brigade Engines, Motor Ambulances and Police Motor Vans, shall be allowed to use—

(1) The Queen's way, and
(2) The Red Road

on the Calcutta Maidan.

Trailers.

58. (*1*) No trailer shall be used unless it is fitted with pneumatic or resilient tyres of a soft and elastic materials:

Provided that the Commissioner may, for special reasons to be recorded in writing, permit non-resilient tyres if he is satisfied that their width and diameter is such that the vehicle will not damage road surfaces.

(*2*) The maximum length of a trailer excluding the coupling shall be 14 feet:

Provided that the Commissioner may by order for special reasons to be recorded permit a trailer to be used whose length is in excess of 14 feet upon such conditions as may be specified in the order.

(*3*) The coupling shall not be more than 4 feet in length; it must be rigid and so constructed as to bear the strain put on it.

(*4*) Every trailer must be provided with suitable springs between each axle and the frame:

Provided that the Commissioner may by order for special reasons to be recorded by him permit a trailer to be used without springs between the axle and the frame upon such conditions as may be specified in the order.

(5) No heavy motor car which is used either as a motor omnibus or otherwise for the conveyance of passengers for remuneration or hire shall draw a trailer.

(6) Not more than one trailer shall be drawn by any motor car:

Provided that the Commissioner may by order for special reasons to be recorded by him permit more than one trailer to be drawn by any such car upon such conditions as may be specified in such order.

(7) A heavy motor car which exceeds twenty-six feet in overall length or which has more than four road wheels shall not draw a trailer.

Marking of trailers.

59. (1) The owner of every trailer shall cause to be painted or otherwise plainly marked on a conspicuous part of the right or off-side of the trailer, in letters and figures not less than one inch in height and of such shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made,—

(a) The weight of the trailer when unladen, and

(b) The axle-weight of each axle of the trailer, and shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary, to keep the said letters and figures clearly legible and clearly distinguishable.

(2) The axle-weight of an axle of a trailer shall not exceed four tons:

Provided that if a heavy motor car draws a trailer which is so partially super-imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the axle-weight of the axle of the trailer shall not exceed 6½ tons.

Determination of axle-weights.

60. (1) Whenever the Commissioner, or any officer duly authorised by him in this behalf, has reasonable grounds for suspecting that the axle-weight for the time being of any axle of any heavy motor car or trailer drawn thereby exceeds the registered or marked axle-weight of that axle, he may—

(a) require the person driving or in charge of the car to drive the car or cause it to be drawn, with or without the trailer, to a weighing machine, and

(b) cause the axle-weight for the time being of any such axle to be ascertained.

(2) The person driving or in charge of such car shall comply with any such requirement, and shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

Height of load.

61. The load of a heavy motor car or trailer shall not exceed 10 feet from the roadway in height, or overlap the extreme width of the vehicle:

Provided that the Commissioner may by order for special reasons to be recorded permit the height of a load to exceed 10 feet and/or to overlap the width of the vehicle upon such conditions as may be specified in the order.

Part IV.—Special rules governing Public Service Vehicles.

(a) *Routes.*

62. The Commissioner may, with the view to securing the public safety, and the convenience of traffic, define, by reference to terminal points and to the course to be followed between those points, the routes upon which regular services of omnibuses may be established. Any person who proposes to establish a regular service of omnibuses upon a route which is not an approved route may apply to the Commissioner to define that route as an approved route.

63. When licensing an omnibus to ply for hire, the Commissioner may attach to any such licence, all or any of the following conditions, that is to say—

(*a*) a condition that the omnibus shall not ply for hire upon specified approved routes or any specified parts thereof, but such condition shall be imposed only on the ground that the omnibus is, by reason of its construction or equipment, unsuitable for use on such routes or parts thereof;

(*b*) a condition that the omnibus shall not, without such consent as aforesaid, ply for hire except in maintaining a regular service.

64. (*1*) The Commissioner may call on all persons, to whom a public service vehicle licence for an omnibus has been granted, subject to the condition that it shall not ply for hire except in maintaining a regular service, to deposit, within 14 days of such order, with the Commissioner a schedule in such form and identified in such manner as he may require showing—

(*a*) the approved routes upon which he intends to establish a regular service of omnibus,

(*b*) the time at which the service on each route is to commence and end on each day,

(*c*) the service to be maintained on each such route, distinguishing, if the service to be maintained on different days or at different hours is to vary, the service to be maintained on the several days or at the several hours,

(*d*) the maximum number of omnibuses to be used to maintain such service on each such route distinguishing, if the service is to vary on different days, the maximum number to be so used on the several days,

(*e*) the stages into which he intends to divide each route and the fares which he intends to charge in respect of such stages, distinguishing, if the stages and fares are to vary on different days or at different hours, the stages and fares on the several days and at the several hours, and shall supply to the Commissioner such number of copies of the deposited schedule as the Commissioner may require.

(*2*) With a view to public convenience the Commissioner may direct that such schedule shall be amended in such respect as he thinks fit.

(*3*) On the order of the Commissioner such schedule or amended schedule shall come into force.

65. The holder of such a licence may, at any time, but only at intervals of not less than four weeks, amend any such schedule or substitute a new schedule therefor by depositing with the Commissioner the proposed amended or new schedule in such form and identified in such manner as the Commissioner may require, and after the deposit of the amendment or new schedule with the concurrence of the Commissioner, the amended schedule or new schedule, as the case may be, shall come into force.

66. A person to whom a licence for an omnibus has been granted subject to the condition that it shall not ply for hire except in maintaining a regular service shall, except when prevented by accident or other unavoidable cause, or when otherwise authorised by the Commissioner, establish and maintain a service in accordance with the schedule for the time being in force with respect to his omnibuses and shall not use for the maintenance of any service a greater number of omnibuses than the maximum specified in such schedule, and shall not charge different fare or fares with respect to different stages from those specified in the schedule.

67. Where, as respects any street or part of a street, the Governor in Council is of opinion that by reason—

(*a*) of the width of the street or part of the street or the density of traffic thereon, or

(*b*) of the existence of alternative facilities for the conveyance of passengers along the street or part of the street or in proximity thereto, or of the omnibus accommodation on the street or part of the street being excessive;

it is desirable that an order under this rule shall be made, he may by order declare the street or part of the street to be a street in which

the plying for hire by omnibuses shall be prohibited or restricted either generally or during particular hours, and a street or part of a street with respect to which such an order is made is hereinafter referred to as a "restricted street."

68. Where the Governor in Council has so declared any street or part of a street to be a restricted street, the Commissioner may prohibit or restrict the plying for hire by omnibuses in the street either generally or during particular hours, limit the aggregate number of journeys which may be made in either direction along the street during particular hours by omnibuses plying for hire.

69. A schedule filed in the office of the Motor Vehicles Department shall be available for inspection by any person who is providing a regular service of omnibuses upon any route or any substantial part of any route included in the schedule.

70. All routes which are approved routes shall be numbered and classified in such a manner as may be directed by the Commissioner and a list of all such approved routes shall be maintained at the office of the Motor Vehicles Department. A copy of the list shall be issued to every applicant for a public service vehicle licence for an omnibus on payment of a fee of rupee one. In any case where it is necessary to refer to any routes in connection with any licence granted in respect of a motor omnibus, it shall for the purpose of identification be sufficient to refer to the classification or numbers of the routes.

71. An omnibus shall not ply for hire except on approved routes, provided that the Commissioner may grant permission, which may either be of special or of general application and may be either absolute or subject to any conditions, for an omnibus to ply for hire on other than an approved route.

(b) Public Service Vehicle Licence.

72. No person shall cause or permit a motor vehicle to be used as a public service vehicle unless he has obtained for it from the Commissioner a public service vehicle licence for that class of public service vehicle for which the motor vehicle is proposed to be used.

The public service vehicle licence shall be in Form K appended to these rules. It shall consist of two parts. One part shall be kept in the custody of the licensee.

The other part hereinafter called the licence card shall be attached to and carried on the vehicle in a holder at all times when the motor vehicle is standing or plying for hire in a public place or street. The holder must be of metal and of weather-proof construction. It must be circular and conform to the following specifications:—

Card Tray.—The licence card should fit nearly into a sheet metal tray of suitable thickness having a turned-up edge of sufficient depth to hold the card and a stout cover of transparent white glass.

Ring cover.—A circular ring of sheet metal shaped to fit down closely on the tray and adapted for fixing by screws, bolts or otherwise to the vehicle in the prescribed position. A rubber packing ring should be arranged to fit between the ring cover and cover glass and tray so as to render the whole carrier weather-proof.

Dimensions.—The aperture within the ring cover should clearly exhibit the whole of the licence card and should have a diameter of 2½ inches.

The licence should be carried on the vehicle on the near side in a position approved by the Commissioner near to the dash board or driver's seat.

73. (*a*) An applicant (which expression shall mean an individual, firm, or corporate body as the case may be) desirous of obtaining a public service vehicle licence for either a motor taxi-cab or a motor omnibus shall apply in Form J appended to these rules to such place as the Commissioner may appoint.

(*b*) An application for a licence on behalf of a co-partnership or company shall be made by, and the licence if granted shall be issued to, the senior partner or the Secretary or Manager or other responsible official of the company as the case may be.

74. (*1*) A public service vehicle licence shall not be granted to any person under the age of 21 years and if granted to any such person it shall be void.

(*2*) The Commissioner may, in his discretion, refuse to grant a public service vehicle licence if the applicant has previously obtained a licence for a public service vehicle and such licence has been revoked or suspended under rule 75.

(3) The Commissioner shall not grant a public service vehicle licence, if the applicant fails to satisfy him,—

(a) that the public service vehicle conforms to the conditions of fitness from time to time laid down;

(b) that he is of good character, that his financial position is such that he is a fit and proper person to hold a licence and that he is otherwise in a position to carry out his responsibilities as licensee of a public service vehicle, and

(c) where the application is made on behalf of a firm or a company that the applicant is of good character and that, the firm or company is of good business repute and that its financial position is such that a licence may properly be granted.

(4) If the application is approved by the Commissioner, the applicant shall bring the vehicle, to which he desires the licence shall attach, to such place as the Commissioner shall direct for examination together with a current registration certificate for the vehicle in the name of the applicant granted under Part II of these rules.

(5) If, however, after the Commissioner has approved of the application, anything comes to his knowledge, or circumstances arise which satisfy him that it is undesirable that such licence should be granted, he may withdraw or suspend such approval, and if such approval is finally withdrawn, a licence shall not be issued. The Commissioner shall record in writing the reasons for the withdrawal or suspension of such approval.

(6) A public service vehicle licence shall, unless suspended or revoked or rendered null and void in the meantime, continue in force up to the date on which the registration of the vehicle expires but not for a longer period than one year.

(7) The person to whom a licence has been issued, whether individually or on behalf of a co-partnership or company, shall be responsible for the observance of the conditions under which the licence is granted as if he were the person solely interested in the licence.

(8) The licensee,

(i) shall not knowingly permit his public service vehicle to be used for an illegal or immoral purpose, or

(ii) shall not deface or mutilate his licence, or

(iii) shall at all times when required produce his licence to the Commissioner or to such person as the Commissioner may appoint, or

(iv) shall at all reasonable times for the purpose of inspection, examination or testing of the vehicle to which the licence relates—

(a) produce the vehicle at a time and place to be notified,

(b) afford to any officer, appointed by the Commissioner to the Motor Vehicles Department, of and above the rank of sergeant full facilities for such inspection, examination or testing, including access to his premises for the purpose,

(v) shall within three days after notice shall have been delivered to him personally or left at the address mentioned in or last endorsed upon his licence, deliver up his licence complete with licence card to the officer-in-charge at the Motor Vehicles Department unless the licence card has previously been removed from the vehicle under the provisions of rule 75 (1),

(vi) shall cause the public service vehicle and all its fittings and furniture to be maintained and kept in good order and repair and shall take all practicable means to secure that all parts of the mechanism, including the brakes and steering are free from defects and in efficient working order, that the inside and outside of the body and all other parts of the vehicle are kept clean and the whole ready and efficient for the purpose of hire, and shall not suffer any printed, written or other matter to appear on the outside or inside of the vehicle except such as shall be approved by the Commissioner,

(vii) shall on the happening to the vehicle of any failure or accident of a nature calculated to affect the safety of the passengers or of persons using the road, or on any alteration, otherwise than by way of replacement of parts, being made in the structure or equipment of the vehicle, forthwith give notice to the Commissioner,

(*viii*) shall not employ or permit or suffer any person to be employed as a driver of a public service vehicle of a class not mentioned in or endorsed upon the said driver's licence,

(*ix*) shall not permit or suffer the public service vehicle to be sublet,

(*x*) shall maintain a register containing the following particulars with respect to each public service vehicle standing or plying for hire:—

(*a*) the date and time when the vehicle leaves the owner's premises;

(*b*) the name and licence numbers of the drivers, and in the case of an omnibus, of the conductors;

(*c*) the date and time of the return of the vehicle.

Such register shall be available for inspection at all reasonable times.

(*9*) The licensee shall, if during the currency of his licence he changes his address, within seven days of such change produce or cause to be produced his licence to the office of the Motor Vehicles Department in order to have the new address endorsed thereon. If the renewal is effected after the date of expiry, the full fee shall be charged.

NOTE.—If the date of expiry falls on a Sunday or on a holiday or on a day when the Motor Vehicles Department of the Calcutta Police is closed, such date of expiry shall be deemed to be the next working day on which that office is open for the transaction of business.

Duplicate registration certificates shall be charged for at the rate of Rs. 2 each.

107. A fee of Rs. 10 shall be charged for a licence to act as a conductor of a motor omnibus. Every such licence shall be in Form M appended to these rules and shall remain in force for a period of 12 months with effect from the date on which it is granted or until its suspension or revocation when it shall be surrendered to the Commissioner.

109. (*1*) No motor car shall be used as a motor cab, unless it is fitted with an approved taxi-meter or other mechanical device for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time. The taxi-meter must be fitted to and operated from a "non-driving wheel." Every taxi-meter when in use shall be locked and sealed, so that it may not be tampered with.

(*2*) Every taxi-meter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words "for hire." The taxi-meter shall be so constructed that when the indicator is vertical the taxi-meter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle and to the hirer when inside.

(*3*) The vertical position of the indicator shall indicate that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

(*4*) Any owner, driver, attendant or other person who shall break or tamper in any way with the seal placed on the taxi-meter or the driving mechanism thereof, or who shall, with intent to deceive, tamper with the taxi-meter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

110. (*1*) No taxi-meter which has not been approved by the Commissioner shall be affixed to a motor cab.

(*2*) Taxi-meters are only to be fitted in such positions and in such manner as may be approved by the Commissioner, the positions and manner to be determined by the construction of the motor cab.

(*4*) No taxi-meter which is in any way defective shall be used upon a motor cab.

(*5*) No flexible or driving gears except such as are approved by the Commissioner may be used and they must be so affixed that no part of the cable, etc., can be readily reached by an unauthorised person. All connections must be so made as to be capable of being sealed in an approved manner to prevent improper removal.

(*6*) The owner of a motor cab of which the registration has expired or been cancelled shall forthwith either detach the taxi-meter, notifying the Commissioner in writing to that effect, or produce the motor cab for renewal of the registration.

111. Every taxi-meter referred to in rule 110 shall, after it is affixed to a motor cab, whether for the first time or after repair or other readjustment, be submitted to the Commissioner or to such officer as he may empower in this behalf for the purpose of examination as to the correctness of fittings, and of subjection to a practical road-test over a measured distance at least of one mile and a time-test of not less than half an hour. If found to be correct, the taxi-meter and its fittings shall then be sealed to the motor cab in such a manner that it cannot be removed or tampered with without the seals being broken or removed.

112. Every taxi-meter shall, at the end of each period of six months (the first of such periods commencing from the date of the test referred to in rule 111) be submitted to a test similar to that prescribed by that rule:

Provided that every taxi-meter shall at any time, if so required by the Commissioner, be submitted to him, or to such officer as he may empower in this behalf, for the purpose of undergoing such test or any portion thereof.

113. The owner of every motor cab shall cause to be kept in the cab, for the inspection of the public, a register in which the testing officer referred to in rule 111 shall, after each of the tests prescribed in rules 111 and 112, enter the date and result of such test.

114. (*1*) Persons desirous of undertaking the work of repairing or adjusting of taxi-meters must receive the approval of the Commissioner and be duly registered with the Commissioner.

(b) that the applicant's financial position is sound,

(c) that the applicant maintains an efficient staff and suitable equipment at his premises and a sufficient supply of spare parts for the repair of taxi-meters,

(d) that the applicant is generally a fit and proper person to undertake the repair or adjustment of taxi-meters.

(3) The situation of the premises where the work of repair or adjustment will be carried out must be notified to the Commissioner and any alteration of address must also be notified.

(4) The premises where the repair work or adjustments are carried out will be open at all reasonable times to inspection by officers of the Motor Vehicles Department not below the rank of sergeant.

(5) The Commissioner may, in his discretion, withdraw his "approval," if it is proved that the firm or individual concerned is unable to comply with the requirements set out herein, or if the business is not carried on to his satisfaction.

No motor cab shall be kept at the stand at a greater distance than one foot from the motor cab next in front or remain with its front wheels off the straight or at an angle to the sides of the stand.

(c) No motor cab engaged for some future time shall remain on the stand, unless the driver is willing to accept any intermediate hiring that may be offered.

(d) No disabled motor cab shall remain on the stand.

116. (1) A single tariff shall be charged at the rate of 2 annas for every quarter of a mile. The minimum charge shall be 8 annas. The tariff shall be in force throughout the day and night within the following limits:—

South—The E. B. Railway line.

West—The Taratola and Nimak Mahal Ghat roads.

West of River Hooghly.

The Municipality of Howrah.

(2) For journeys outside these limits, the said tariff shall be charged while the motor cab is occupied, and if the return journey is made by the motor cab unoccupied, an additional charge shall be made for the return journey to the nearest point on the said limits. Such additional charge shall be at the rate of four annas a mile.

(3) If the motor cab is licensed for more than three passengers, and at any time during the hiring more than three passengers are carried together, the driver shall be entitled to an extra payment of six annas for every passenger above three so carried, provided that in the case of children, under the age of ten years, the extra payment for each child shall be two annas only.

(4) The driver shall be entitled to a waiting charge at the rate of Re. 1-14 per hour, or two annas for each four minutes, at all times during the day or night.

(g) Conditions of fitness of motor taxi cabs.

117. (1) Every taxi cab must be presented for inspection in thoroughly good condition, and no vehicle will be certified fit for public use unless it is properly painted and varnished. A proprietor may, if he so desires, apply for a preliminary inspection of the chassis.

(2) The following conditions must also be strictly complied with, namely:—

(a) each new type of motor vehicle intended for registration as a taxi cab must be presented at such place as the Commissioner may appoint for inspection; and

(b) the proprietor must at the time of inspection produce a certificate from the maker or importer stating that the materials of which all the parts of the vehicle are constructed are good, that the machinery is safe, and that the vehicle is in every way fit for use as a public service vehicle.

118. (1) If, after the inspection, the vehicle is approved such approval may extend to all vehicles of that description, and others of the same type need not be again presented, except as hereinafter provided, but may be taken to such place as the Commissioner may appoint, to be registered and passed, provided a certificate from the maker or importer is submitted with each vehicle presented for registration, stating that it is in every respect similar to that already approved and respecting which a certificate has been furnished.

(2) Notwithstanding anything contained in sub-rule (1), if after the type has been passed, defects develop which, in the opinion of the Commissioner, render it unsuitable as a type for public service, the Commissioner may withdraw such approval entirely or until the defects have been remedied to his satisfaction.

119. A certificate from the proprietor of the vehicle, stating that there has been no alteration in the design of the machinery since the previous inspection and date covered by the maker's or importer's certificate, must be presented with each taxi cab submitted for the renewal of registration. Should any alteration be made, full particulars of such must be stated and the same course of action may be required as for a first inspection.

120. Should it be deemed necessary, an expert, accepted by the Commissioner and the owner shall be employed to advise. The fee for the expert examination must be deposited by the proprietor with the Commissioner, which fee will be returned if the vehicle be passed without any alteration being required.

121. *Clearance.*—All the underparts of the vehicle inside the pivots of the front axle and steering arms (which must be placed as near as possible to the road wheels) as far back at least as the rear axle must be clear from the ground by at least 8 inches, sufficient allowance in addition being made to provide for the wear of the tyres, set of the springs, or other causes of lessened height, so that the minimum clearance of 8 inches at all times is maintained.

122. *Springs.*—Must be properly hung, of sufficient strength and flexibility to meet all purposes which may be required of them. The rear springs must be attached to, or bear upon the back axle or axle casing as near to the road wheels as possible, and the distance between the outsides must not be less than 40 inches. Where a cross spring is used, it must be so applied that it shall not cause or increase side sway. The front springs must be as wide apart as possible, and not less than 26 inches from outside to outside.

123. *Wheel-base.*—The wheel-base must in all cases be so proportioned that skidding or other improper movements shall be as far as possible avoided.

124. *Wheel-track.*—Both front and rear wheels should coincide, and the measurement from centre to centre taken in line with the axles, must not be less than 4 feet 4 inches. The front track must be the same as that of the rear wheels or within 2½ per cent. thereof, but in no case should it be less in front than the rear.

125. *Road wheels.*—These must be of sufficient and suitable strength and diameter, and not of undue weight.

126. *Tyres.*—The material of which each tyre is made must be soft and elastic, *e.g.*, pneumatic rubber tyres.

127. *Length.*—This must be such that the total length of the vehicle complete in no case exceeds 14 feet.

128. *Breadth.*—The breadth must not be greater than 5 ft. 9 inches at any part.

129. *Brakes.*—(*a*) Brakes must be of sufficient strength and be capable of stopping and holding the vehicle under all conditions.

(*b*) There must be at least two independent brakes, the application of either of which shall be capable of causing the two rear wheels to be so held as effectually to prevent the wheels from revolving, or shall have the same effect in stopping the vehicle as if such wheels were so held.

(*c*) Brakes will not be deemed independent which are so constructed that the failure of any part of the mechanism operating one brake shall adversely affect the operation of the other brake but so nevertheless that the brake drum may be common to the two brakes. One brake must be applied by a pedal and at least one brake must act directly upon the road wheels without any connection with the propelling gear.

(*d*) The operation of either brake must not in any case declutch the engine from the transmission gear.

(*e*) The brake gear must be properly adjusted and nothing shall be placed on the vehicle which will prevent easy access to the brakes for adjustment.

(*f*) All brake connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

130. *Horn.*—An approved pattern hand bulb horn having a single deep toned note for giving audible warning of approach of the vehicle must be provided.

Only one horn of the approved pattern shall be carried on a taxi cab. Such horn will be sealed to the taxi cab in the manner approved by the Commissioner.

No owner, driver or attendant shall break or tamper with or permit any other person to break or tamper in any way with the seal placed on the approved horn or on the mechanism thereof, and no person shall carry or use in a taxi cab any horn other than that sealed to the taxi cab by the Commissioner.

131. *Turning circle.*—Each motor cab must be capable of being readily steered and able to turn on each lock and proceed in a contrary direction within a roadway not more than 30 feet wide from kerb to kerb.

In turning the wheels must not foul other parts of the motor cab.

132. *Steering Arms and Connections.*—(*a*) The steering mechanism must be so constructed or arranged as to avoid the possibility of overlock.

(*b*) The ball and socket joints of steering connections, when such are used, should not be pendant, but the longitudinal or transverse rods must be carried upon the ball.

(*c*) All steering connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

(*d*) The steering gear, including the arms and other connections thereof, must be of ample strength and as far as possible protected from damage by collision.

133. *Lock-nuts.*—All moving parts and all parts subject to severe vibration connected by bolts or studs and nuts must be fastened by lock nuts, or by nuts and efficient spring or lock-nut washers or castellated nuts and split pins so as to prevent their working or coming loose.

134. *Vibration or noise.*—Any vehicle with lamp brackets or other fittings loose, and likely to cause unnecessary noise, will be regarded as unfit for public service.

The machinery and all parts of the vehicle must be so constructed that no undue noise or vibration arises from its use. Exhaust silencer "Cut Outs" are not to be fitted.

135. *Emission of smoke from exhaust.*—The lubrication of the engine and the carburation must be so controlled that smoke shall not be emitted with the exhaust or from any other part.

136. *Carburettors.*—Carburettors or other petrol receptacles, unless they are suitably encased or screened, must not be placed in close proximity to magnetos, connections of wires carrying electric current or to the engine exhaust pipe.

137. *Undershield.*—When a guard tray or undershield is fixed beneath the engine and adjacent machinery, it shall be so constructed that any overflow of petrol will not be retained in the tray.

138. *Fuel tanks.*—(*a*) Fuel tanks must be so placed that they are not liable to be readily damaged by collision and that any overflow shall not fall upon any woodwork or accumulate where it can be readily ignited.

(*b*) The petrol supply pipe must be so led that a cock can be provided which shall be visible and readily accessible at all times from outside the vehicle to shut off the main supply.

(*c*) Special care must be taken that the filler caps of all petrol tanks are tightly fixed in position. The vent hole (if any) must be protected from danger of fire penetration, and must be designed to prevent petrol being splashed over.

139. *Exhaust pipe.*—The exhaust pipe must not be fixed in such a position that oil, or any vaporisable or inflammable material, is likely to be dropped upon it.

Effective means shall be adopted to prevent the heat of the motor, generator, or the exhaust pipe and its connections from injuriously affecting any parts of the vehicle or the comfort of the passengers.

140. *Fire extinguishers.*—Suitable and approved appliances for extinguishing fire must be carried in such a position as to be readily available for use.

141. *Silencer.*—The outlet from the silencer must not be so placed as to project the exhaust directly to the rear, on to the roadway, or to the near side, or be so placed, or so directed as to alarm horses at the side of or immediately behind the vehicle.

142. *Grease dropping.*—The chassis must be so constructed as to prevent oil or grease from the bearings or other parts dropping on to the roadway.

143. *Insulation.*—All electric leads must be adequately insulated and protected against injury, and so placed as not to be a cause of danger. Unarmoured wiring will not be allowed.

No luggage shall be carried on the roof of the cab, unless there has been affixed thereto a guard rail of a type approved by the Commissioner, or by such officer as he may empower in this behalf.

150. *Carrying capacity.*—The carrying capacity of all motor cabs fixed by the Commissioner shall be shown legibly on the inside of the cab and outside at the rear. No motor cab shall be licensed to carry in the body of the cab more than three passengers, unless it is fitted with a front seat *facing* the back seat, sufficient to accommodate the additional passenger permitted. The space on the near side of the driver may be used for a passenger or luggage at the option of the hirer.

151. *Accumulators.*—When accumulators or other electrical appliances are used for the purpose of providing the means of illumination, they must be so placed that they cannot be a source of danger and must be of approved type and capacity.

152. *Inflammable fittings.*—No celluloid or xylonite fittings shall be placed inside or outside any motor cab:

Provided that this rule shall not apply to the side curtains and hood and the accumulators contained in such cab if suitably boxed.

155. *Lighting.*—The lamps required by the rules relating to motor vehicles must be thoroughly effective for the purpose for which supplied and the proprietor will be held responsible for the maintenance of the lamps in this condition.

A lamp or lamps must be fixed to comply with the rules relating to motor vehicles. An approved form of lamp must also be provided to illuminate the taxi-meter.

Side or rear lamps other than electric must not be fixed in close proximity to the petrol tank.

156. *Registered number of motor cab.*—The registered number of every motor cab shall be shown clearly on the inside of the cab in an approved manner.

159. *Cabs of newer designs.*—If the owner of a motor cab which does not conform to the foregoing conditions of fitness satisfies the Commissioner that it is in all respects fit and satisfactory for public service, the Commissioner may, if he thinks proper, consent to a departure in the case of that vehicle from any of the conditions of fitness.

160. Notwithstanding anything contained in these rules, if there is anything in the construction, form, working, fittings, or general appearance which, in the opinion of the Commissioner, renders the vehicle unfit for public use, or is undesirable in the public interest, it shall not be licensed.

(h) Conditions of fitness of omnibuses.

161. (*1*) Every motor omnibus must be presented for inspection in thoroughly good condition, and no vehicle will be certified fit for public use unless it is properly painted and varnished. A proprietor may, if he so desires, apply for a preliminary inspection of the chassis.

(*2*) The following conditions must also be strictly complied with, namely:—

(*a*) each new type of motor vehicle intended for registration as an omnibus must be presented at such place as the Commissioner may appoint for inspection; and

(*b*) the proprietor must, at the time of inspection, produce a certificate from the maker or importer stating that the materials of which all the parts of the vehicle are constructed are good, that the machinery is safe, and that the vehicle is in every way fit for use as a public carriage.

162. (*1*) If, after the inspection, the vehicle is approved, such approval may extend to all vehicles of that description, and others of the same type need not be again presented, except as hereinafter provided, but may be taken to such place as the Commissioner may appoint, to be registered and passed, provided a certificate from the maker or importer is submitted with each vehicle presented for registration, stating that it is in every respect similar to that already approved and respecting which a certificate has been furnished.

(*2*) Notwithstanding anything contained in sub-rule (*1*), if, after the type has been passed, defects develop, which, in the opinion of the Commissioner, render it unsuitable as a type for public service, the Commissioner may withdraw such approval entirely, or until the defects have been remedied to his satisfaction.

163. A certificate from the proprietor of the vehicle, stating that there has been no alteration in the design of the machinery since the previous inspection and date covered by the maker's or importer's certificate, must be presented with each omnibus submitted for renewal of registration. Should any alteration be made, full particulars of such must be stated and the same course of action may be required as for a first inspection.

164. No person shall be registered as the owner or possessor of a motor omnibus, unless, in the opinion of the Commissioner, he is a fit and proper person and provides and maintains a suitable garage.

165. Should it be deemed necessary, an expert, accepted by both the Commissioner and the owner, shall be employed to advise. The fee for the expert examination must be deposited by the proprietor with the Commissioner. It will be returned if the vehicle be passed without any alteration being required.

166. *Weight.*—The total weight laden and complete for service must not exceed 9 tons, and the weight of any one axle must not exceed 5½ tons. In the case of approved types of rigid frame six-wheelers the laden weight must not exceed 12 tons, and the weight of any one axle must not exceed 4½ tons.

Note.—112 lbs. to be allowed for each passenger, as well as the driver and conductor, in calculating the total laden weight.

167. *Length.*—The maximum overall length, exclusive of the starting handle, measured from the dumb irons must not exceed 26 feet:

Provided that the Commissioner may at his discretion permit for certain selected routes a maximum overall length of 30 feet.

168. *Width.*—The overall width must not exceed 7 feet 6 inches.

169. *Overhang behind rear wheels.*—The overhang behind the rear wheels measured from the centre of the rear axle shall not exceed 7/24ths of the overall length of the vehicle.

Note.—In the case of rigid frame six-wheelers, the overhang is measured from a point 4 inches in rear of a straight line joining the centre points of rear and middle axles.

170. *Wheel track.*—The distance between the centre lines of the track of the front wheels and of the rear wheels must be as nearly as possible the same, and must not be less than 72 per cent. of the overall width for a double deck vehicle and 69 per cent. of the overall width for a single deck vehicle. In no case may the distance between the centre lines of the tracks of the front wheels be less than the distance between the centre lines of the tracks of the rear wheels, nor shall the excess be more than five inches. In all cases wheel track measurements shall be taken horizontally in line with the axles.

171. *Road wheels.*—When the axle-weight of any axle exceeds 4 tons, the diameter of the tyres on the wheels of such axle, unless they are pneumatic, shall not be less than 1·010 mm. Where pneumatic tyres are used, they shall not be less than 950 mm. All omnibuses must be provided with pneumatic tyres.

172. *Brakes.*—(*a*) Brakes must be of sufficient strength and be capable of stopping and holding the vehicle under all conditions.

(*b*) There must be at least two independent brakes, the application of either of which shall be capable of causing the two rear wheels to be so held as effectually to prevent the wheels from revolving, or shall have the same effect in stopping the vehicle as if such wheels were so held.

(*c*) Brakes will not be deemed independent which are so constructed that the failure of any part of the mechanism operating one brake shall adversely affect the operation of the other brake but so nevertheless that the brake drum may be common to the two brakes. One brake must be applied by a pedal and at least one brake must act directly upon the road wheels without any connection with the propelling gear.

(*d*) The operation of either brake must not in any case declutch the engine from the transmission gear.

(*e*) The brake gear must be properly adjusted and nothing shall be placed on the vehicle which will prevent easy access to the brakes for adjustment.

(*f*) All brake connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

173. *Springs.*—(*a*) *Rear.*—The rear springs must be attached to, or bear upon, the back axle or axle casing as near to the road wheels as possible, and the distance from outside to outside must not be less than 50 per cent. of the overall width of the vehicle.

(*b*) *Front.*—The front springs must be as wide apart as possible, and not less than 42 per cent. of the overall width of double deck vehicles and 37 per cent. of the overall width of single deck vehicles from outside to outside, provided that if the width of the rear springs from outside to outside is 53 per cent. of the overall width of the vehicle or more, the minimum width between the front springs as provided above may be reduced by 1 inch.

(*c*) *Cross.*—Prohibited.

174. *Steering arms and connections.*—(*a*) The steering mechanism must be so constructed or arranged as to avoid the possibility of overlock.

(*b*) The ball and socket joints of steering connections, when such are used, should not be pendant, but the longitudinal or transverse rods must be carried upon the ball.

(*c*) All steering connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

(*d*) The steering gear, including the arms and other connections thereof must be of ample strength and as far as possible protected from damage by collision.

175. *Clearance.*—The omnibus shall be so constructed that no portion of it within the limits hereinafter specified shall be nearer to the ground than ten inches, allowance being made for the wear of tyres, set of springs and other causes likely to reduce the clearance, so that a minimum clearance of ten inches shall at all times be maintained. The specified limits extend in length rearwards from the foremost part of the omnibus (excluding the starting handle and the body work) for a distance of fourteen feet six inches or, in the case of an omnibus whose back axle is less than fourteen feet six inches in rear of the foremost part as aforesaid of the omnibus up to but not including the back axle, and in width for a distance on either side of the centre line of the omnibus of not less than one-third of the front wheel track.

Note.—For rigid six-wheeled omnibuses substitute 13 feet for 14 feet six inches in the above rule.

176. *Lock-nuts.*—All moving parts and all parts subject to severe vibration connected by bolts or studs and nuts must be fastened by lock nuts, or by nuts and efficient spring or lock-nut washers or by castellated nuts and split pins so as to prevent their working or coming loose.

177. *Guard for sprocket.*—Driving chains and sprockets must be protected by a suitable guard.

178. *Fuel tanks.*—(*a*) Fuel tanks must be so placed that they are not liable to be readily damaged by collision and that any overflow shall not fall upon any woodwork or accumulate where it can be readily ignited.

(*b*) The petrol supply pipe must be so led that a cock can be provided which shall be visible and readily accessible at all times from outside the vehicle to shut off the main supply.

(*c*) The filling point must be outside the passenger compartment and special care must be taken that the filler caps of all petrol tanks are tightly fixed in position. The vent hole (if any) must be protected from danger of fire penetration, and must be designed to prevent petrol being splashed over.

179. *Rattling of windows, etc.*—Effective means must be provided to prevent the rattling of venetians, window frames and glasses.

180. *Exhaust pipe.*—The exhaust pipe must not be fixed in such a position that oil, or any vaporisable or inflammable material, is likely to be dropped upon it.

Effective means shall be adopted to prevent the heat of the motor, generator, or the exhaust pipe and its connections from injuriously affecting any parts of the vehicle or the comfort of the passengers.

181. *Carburettors.*—Carburettors or other petrol receptacles must be suitably encased or screened, or so placed that no leakage from them shall fall upon any magneto, or on any connections or wires carrying electric current.

182. *Turning circle.*—Each vehicle must be able to turn in either direction in a circle not exceeding 60 feet in diameter as determined by the extreme wheel track. In turning the wheels must not foul other parts of the vehicle.

183. *Hub-caps.*—Hub-caps must not project more than 3½ inches beyond the rim of the wheel.

184. *Driver.*—(*a*) No person, except a learner, fitter or other official when specially authorised by the proprietor (such person to carry a special pass or badge), or a person authorised by the Commissioner, shall be allowed to ride beside the driver at any time.

(*b*) Nothing shall be so placed or permitted on the vehicle which will interfere with free signalling by the driver either by hand signals or by a mechanical contrivance or which obstructs a free view of the driver to the left.

185. *Wind screens.*—Front glass wind screens (if any) must be securely fastened to the body of the vehicle and be of such a size and construction that the view of the driver shall at all times and under all conditions be clear and unobstructed. Adjustable sections (if any) must be provided with adequate locking or fixing devices.

186. *Lifeguards.*—Vehicles not fitted with "running boards" or the equivalent, and so constructed as to leave the space between the front and rear wheels unguarded, must be fitted with guard rails so as to guard that space effectively.

187. *Machinery, body and fittings.*—(*a*) The body must be securely affixed to the chassis.

(*b*) The machinery, body and fittings shall be in a good state of repair, so that no undue noise or vibration arises from them.

190. *Window rails.*—When the side lights or venetians are made to be lowered, provision must be made (by means of guard rails or otherwise) to protect the arms of seated passengers from being thrust through and injured by passing vehicles, or the extent to which the side lights can be lowered must be limited so that such protection may not be needed.

191. *Entrances and exits.*—(*a*) Where the entrance is not at the rear end, an emergency door opening outwards shall be provided behind and clear of the rear wheels. This door must be easily accessible to the passengers and so fastened as to be readily opened in case of need both from the inside and from the outside.

(*b*) A grab handle must be fitted to each doorway to assist passengers in mounting or alighting from the vehicle.

(*c*) No doorway shall be less than 21 inches in width.

192. *Height* (inside of body).—The height inside, measured at the centre line of the vehicle from the top of the floor battens of the lower deck to the lower edge of the hoop sticks or other such projections, must not be less than 5 feet 8 inches if the seating capacity of the vehicle does not exceed 20 and not less than 5 feet 10 inches if the seating capacity of the vehicle exceeds 20.

194. *Seats.*—At least 15 inches, measured in a straight line along the length of the front of each seat must be allowed for each passenger on every seat, which seat must be fit and convenient for sitting on. Cross or "garden" seats must be so fitted that—

(*i*) when facing in the same direction a clear space of a minimum width of 25 inches must be provided in front of the back of each seat at all points measured along the top of the seat back; and

(*ii*) when facing each other there must be a clear space between the surface of any portion of the seat against which the back of the passenger is to rest and the surface of the corresponding portion of the seat facing it of a minimum width of 3 feet and 11 inches and a clear space between all parts of the front of each seat of a minimum width of 1 foot 7 inches.

2. Part IV of the revised rules contain special rules governing public service vehicles in relation to such matters as routes; public service vehicle licence; conduct of drivers, conductors and passengers; drivers' and conductors' licences; taxi-meters; taxi-cab stands and tariff; conditions of fitness of taxi-cabs; conditions of fitness of omnibuses and additional requirements for double deck vehicles.

ANNUAL VALUE OF LAND OR BUILDING, HOW TO BE ASCERTAINED.

127. For the purpose of assessing land and buildings to the consolidated rate,—

(*a*) the annual value of land, and the annual value of any building erected for letting purposes or ordinarily let, shall be deemed to be the gross annual rent at which the land or building might at the time of assessment reasonably be expected to let from year to year, less, in the case of a building, an allowance of ten *per cent.* for the cost of repairs and for all other expenses necessary to maintain the building in a state to command such gross rent; and

(*b*) the annual value of any building not erected for letting purposes and not ordinarily let shall be deemed to be five *per cent.* on the sum obtained by adding the estimated present cost of erecting the building, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated present value of the land valued with the building as part of the same premises:

Provided as follows:—

(*i*) the annual value of a *bustee* shall be deemed to be the gross annual rent at which the land contained within it, excluding the lands which have been left vacant for the purposes of any *bustee* street **under the provisions of the Bengal Municipal Act, 1884, or as** prescribed in or under a standard plan approved by the **Commissioners at a meeting under the provisions of the Bengal Municipal Act, 1884,** might reasonably be expected to let from year to year, *plus* the gross annual rent at which the huts erected thereon might reasonably be expected to let from year to year, after deducting therefrom the rent of the land and an allowance of ten *per cent.* for the cost of repairs and for all expenses necessary to maintain such huts in a state to command such gross rent;

(*ii*) in calculating the value of any land or building under this section, the value of any machinery on such land or in such building shall be excluded,

but all fixtures including lifts and electric and other fittings which add to the convenience of the building shall be valued, subject in the case of a lift to such deduction from the valuation, as the **Chairman** may think proper, on account of the cost of repairs to, maintenance of, and attendance on, such lift;

(*iii*) if in the case of a building valued under clause (*b*), the annual value of which does not exceed five hundred rupees, any exceptional circumstances exist which render a valuation of five *per cent.* on the cost of erecting the building less depreciation, excessive, a lower percentage may be taken;

(*iv*) when any building has been valued at a special percentage taken under proviso (*iii*), it may be re-valued at any time after the exceptional circumstances referred to in that proviso have ceased to exist.

ASSESSMENT OF ANNUAL VALUE, AND DURATION OF ASSESSMENT.

131. (*b*) if no such notice has been delivered, then from the commencement of the quarter next succeeding that in which such amendment was made :

Provided that the old valuation shall, notwithstanding that the period for which it was made may have expired, continue in force until the commencement of the quarter referred to in clause (*a*) or clause (*b*), as the case may be.

the owner may in such case, notwithstanding anything contained in any other law for the time being in force in Bengal, recover from the person who pays him rent the difference between the sum assessed as the owner's share of the consolidated rate in respect of such land or building and the sum at which such share would have been assessed had the land or building been valued only at the amount of rent actually payable to the owner,

and such difference shall be added to the rent and shall be recoverable as rent by the owner from the person liable for the payment of the rent.

REFUND OF OWNER'S SHARE OF CONSOLIDATED RATE FOR PERIOD OF VACANCY.

Provided that, when any land not being *wakf* or *debutter* property, which in the opinion of the **Commissioners at a meeting** is suitable for a building site, is not adequately utilized for such a purpose for a period of more than three years, the right to a remission of the consolidated rate for a vacancy in this respect, although the land is not occupied and is not productive of rent, shall cease on the expiration of such period, unless the **Commissioners at a meeting** exempt such land from the operation of this proviso on the ground that it is necessary for the land to be left open for the purpose of ventilation, or that, in their opinion special circumstances exist which render it impracticable for the owner or lessee to utilize the land as a building site.

REFUND OF OCCUPIER'S SHARE OF CONSOLIDATED RATE.

152. Any person who has, in respect of any land or building which has been assessed to the consolidated rate, paid the occupier's share of such rate for the whole of any quarter, shall be entitled to a refund of the rate so paid for any period in that quarter during which he did not occupy such land or building, provided that such person has given notice in writing of the facts to the **Chairman.**

157. If any land or building is ordinarily occupied by more than one person holding in severalty, or is valued at less than two hundred rupees, the **Chairman** may, notwithstanding anything contained in section 149, levy the entire consolidated rate from the owner of such land or building.

RECOVERY FROM OCCUPIER OF PORTION OF RATE PAID BY OWNER UNDER SECTION 157.

158. When the entire consolidated rate is paid by the owner of any land or building under section 157, such owner may, if there be but one occupier of the land or building, recover from such occupier half of the rate so paid and may, if there be more than one occupier, recover from each occupier half of such sum as bears to the entire amount of rate so paid by the owner the same proportion as the value of the portion of the land or building in the occupation of such occupier bears to the entire value of such land or building.

159. (*1*) Notwithstanding anything contained in section 149, the entire consolidated rate leviable upon a *bustee* shall, after deducting therefrom a sum equal to one-eighth of such rate, be paid by the owner of such *bustee* :

Provided that, if the owner of the *bustee* is also the owner of the huts therein, no such deduction shall be made.

(*2*) Whenever the consolidated rate is leviable upon a *bustee*, the owner of the land contained within such *bustee* may recover from the owner of each hut standing thereon—

(*i*) one-half of the consolidated rate payable in respect of the land on which the hut stands ;

(*ii*) the entire consolidated rate payable in respect of the hut.

(*3*) The sum deducted under the sub-section (*1*) shall be retained by the owner of the bustee—

(*a*) as a set-off against the expenses which may be incurred in collecting the portion of the rate recoverable under sub-section (*2*) from the owners of huts, and

(*b*) as a commutation of all refunds in respect of huts which are vacant or which may be removed or destroyed during the continuance of the period for which the rate is leviable.

CONSOLIDATED RATE NOT PAYABLE ON NEW OR ENLARGED HUTS IN A "BUSTEE."

160. The consolidated rate shall not be payable on account of any new huts built or any huts enlarged in a *bustee* during the year for which the valuation of the *bustee* remains in force under clause (*a*) of sub-section (*2*) of section 131.

POWER TO EXCEPT "BUSTEE" FROM SECTION 159.

161. The **Commissioners at a meeting** may, by order, from time to time and for such period as may be specified in the order, except any *bustee* or any part of a *bustee* from the operation of section 159 ; and while any such order is in force in respect of any *bustee* or part thereof, the other provisions as to the payment and recovery of the consolidated rate shall apply to such *bustee* or part.

If the occupier of any land or building refuses or neglects to comply with a notice served under section 162, he shall be liable to pay the rate payable by the owner on account of such land or building ; and, on non-payment thereof, the **Chairman** may recover the same by distress and sale of any movable property found on the land or in the building :

Provided that no arrear of the rate which has remained due from the owner of any land or building for more than one year shall be so recovered from the occupier thereof.

164. (*1*) When an objection to a valuation has been made under section 139, the consolidated rate shall, pending the final determination of the objection, be paid on the previous valuation.

(*a*) any sum paid in excess shall be refunded or allowed to be set-off against any present or future demand of the **Commissioners,** and

(*b*) any deficiency shall be deemed to be an arrear of the consolidated rate and shall be payable and recoverable as such :

Provided that—

(*i*) if any premises have, for the purposes of valuation under section 131, been for the first time valued or subdivided or amalgamated with any other premises, and an objection to the valuation thereof has been made under section 139, then the consolidated rate shall, pending the final determination of the objection, be paid on such valuation ; and

(*ii*) if, when such objection has been finally determined, such valuation is reduced, and if the consolidated rate has already been paid thereon, then the sum paid in excess shall be refunded or allowed to be set-off against any present or future demand of the **Commissioners.**

(2) No appointment shall be made to the Indian Forest Service by any method not specified in rule 2.

(3) Subject to the provisions of sub-rule (2) the method or methods of recruitment to be employed for the purpose of filling any particular vacancies in the Indian Forest Service or such vacancies therein as may be required to be filled during any particular period, and the number of candidates to be recruited by each method, shall be determined by the Secretary of State in Council.

PART II.—APPOINTMENT BY NOMINATION IN ENGLAND.

4. Candidates shall have attained the age of 21 and shall not have attained the age of 24 on the 1st January of the year of candidature. They shall be unmarried, and if they marry before reaching India, shall forfeit their appointments.

5. No person shall be deemed eligible for appointment who is not a male and who does not satisfy the Secretary of State for India in Council—

(*a*) that his character is such as to qualify him for employment in the Indian Forest Service;

(*b*) that he is a British subject of non-Indian domicile;

(*c*) that if he (being a British subject of non-Indian domicile) or his father or his mother was not born within His Majesty's dominions and allegiance, then at the time of his birth his father was a British subject and still is, or continued to be until his death, a British subject.

PART III.—APPOINTMENT BY COMPETITIVE EXAMINATION IN INDIA.

6. A candidate must be a male and either—

(*i*) a British subject of Indian domicile who was, and whose father and mother were, born within His Majesty's Dominions and allegiance, or

(*ii*) a British subject of Indian domicile whose father was at the time of the candidate's birth and still is (or, if dead, continued until his death to be) a British subject or a subject of a State in India, or

7. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a member of the Indian Forest Service, and a candidate who is found after examination by a Medical Board not to satisfy these requirements will not be appointed.

10. A candidate must have passed the examination necessary to qualify him for the degree of a University approved by the Governor-General in Council or the Senior Diploma of the Mayo College, Ajmer. In exceptional cases the Public Service Commission may treat, as qualified under this rule, a candidate who, though not possessing the foregoing qualifications, has passed examinations conducted by other institutions of a standard which in the opinion of the Public Service Commission justifies their admission.

11. The competitive examination shall be conducted in accordance with regulations made by the Governor-General in Council, and such fees may be charged to candidates as may be prescribed in those regulations.

12. A list of the candidates shall be made in order of their proficiency as disclosed by the aggregate marks finally awarded to each candidate, and in that order so many candidates up to the determined number of appointments as are found by the Public Service Commission to be qualified by examination shall be designated to be selected candidates for the Indian Forest Service, provided that the Governor-General in Council is satisfied that they are duly qualified in other respects. Should any selected candidate become disqualified, the candidate next in order of merit and in other respects duly qualified shall be deemed to be a selected candidate.

15. The candidates so recommended shall possess the qualifications specified in rules 6 and 7 and must satisfy the Public Service Commission that they are in all respects suitable for employment in the Indian Forest Service. The recommendations shall be made primarily from the list of candidates who have sat at the last preceding competitive examination held in India for the Indian Forest Service and have attained a qualifying standard. Candidates may, however, also be recommended whose names are not included in that list and the Public Service Commission may, if they consider it necessary, call for fresh names in such numbers and from such local Governments as the Governor-General in Council may direct.

16. The Governor-General in Council shall forward to the Secretary of State for India in Council the recommendations made by the Public Service Commission and shall propose candidates for appointment as selected candidates.

17. The selected candidates will ordinarily be required to undergo satisfactorily a course of training at the Forest College, Dehra Dun, as laid down in rule 13.

PART V.—APPOINTMENT BY PROMOTION FROM THE PROVINCIAL FOREST SERVICES.

Note.—Nothing in the above rules applies to recruitment for the Indian Forest Service in Bombay and Burma, since recruitment to the Service in those provinces has been discontinued.

(*i*) satisfy the physical test prescribed in regulation 4,

(*ii*) satisfy the Medical Board that he fulfils the requirements of Rule 7.

6. No recommendation except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for selection.

(*i*) Rs. 5 with the application form,

Repeal.

11. The Indian Lac Cess Act, 1921, is hereby repealed. XIV of 1921.

Dissolution of the Indian Lac Association for Research.

12. Notwithstanding anything contained in the Societies' Registration Act, 1860, the Indian Lac Association for Research is hereby dissolved, and all monies and properties vested in it are hereby transferred to the Committee, subject to the payment of any outstanding claims incurred by the said Association under the Indian Lac Cess Act, 1921. XXI of 1860. XIV of 1921.

STATEMENT OF OBJECTS AND REASONS.

Under the existing Indian Lac Cess Act, 1921, the proceeds of the lac cess are, after deduction of the expenses of collection, paid to the Lac Association. The control of these funds is vested in a Committee of the Association which has been constituted under the rules of the Association and not by any statutory authority. This Committee is composed of three representatives of Calcutta shippers, two of Indian manufacturers, two of Indian brokers, one of European manufacturers and one of European brokers. The Committee, through its control of the lac cess funds, controls also all expenditure on research which is carried out in the Lac Research Institute at Ranchi.

The Lac Association have represented to the Government of India that the Committee which is located at Calcutta, is not in a position to control effectually or to the best advantage the future conduct of research in the lac industry, having neither the necessary knowledge nor necessary experience. The Committee particularly feels its inability to bring home to the cultivator the results of the research work done at the Institute. The Association have accordingly recommended that the existing Lac Cess Act should be replaced by a fresh measure providing for a continuance of the lac cess and constituting a statutory committee on the lines of the Central Cotton Committee, which should take over control of the Research Institute and should administer generally the lac cess funds. The Government of Bihar and Orissa, within whose jurisdiction the Research Institute is located, concur in this recommendation.

The Royal Commission on Agriculture have also in paragraphs 498 and 499 of their report emphasised the importance of bringing together the various interests in the lac industry somewhat on the lines of the Indian Central Cotton Committee, and of including in the body entrusted with the control of the cess funds nominees of the Government of India and of the Government of Bihar and Orissa and an official to represent the interests of cultivators.

The Government of India after giving the matter their careful consideration and after consulting Local Governments have decided to accept the recommendations of the Indian Lac Association and the Government of Bihar and Orissa.

The object of this Bill is to give effect to this decision. It is proposed that the statutory committee to be constituted should include technical experts in the employ of the Government of India and Bihar and Orissa, as suggested by the Royal Commission on Agriculture and also representatives of manufacturers, shippers and cultivating interests. Opportunity is also taken in accordance with a recommendation of the Government of Bihar and Orissa to enlarge the definition of the objects to which the proceeds of the cess may be applied, so as to include within its scope the investigation of marketing methods and the promotion of sales.

It is also proposed in accordance with a recommendation made by the same Government that the new measure should be of a permanent character, subject to a dissolution clause as in clause 7 of the Bill. The rule making powers which it is proposed to take are analogous to those incorporated in the Indian Cotton Cess Act, 1923.

Short title and commencement.

1. (*1*) This Act may be called the Indian Companies (Amendment) Act, 1930

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

2. In section 144 of the Indian Companies Act, 1913,— VII of 1913.

(*a*) in sub-section (*1*)

(*ii*) for the proviso the following proviso shall be substituted, namely:

"Provided that a firm whereof the partners all hold such certificates may be appointed by its firm-name to be auditor of a company, and may act in its firm-name"; and

(*b*) for sub-section (*2*) the following sub-sections shall be substituted, namely:—

"(*2*) The Governor General in Council may, by notification in the *Gazette of India* and after previous publication, make rules providing for the grant of such certificates and prescribing conditions and restrictions for the grant thereof.

(*2A*) In particular, and without prejudice to the generality of the foregoing power, such rules may

(*a*) provide for the maintenance of a Register of Accountants entitled to apply for such certificates;

(*b*) prescribe the qualifications for enrolment on the Register and the fees therefor;

(*c*) provide for the examination of candidates for enrolment, and prescribe the fees to be paid by examinees

(*d*) prescribe the circumstances in which the name of any person may be removed from or restored to the Register;

(*e*) provide for the establishment, constitution and procedure of an Indian Accountancy Board, consisting of such persons as the Governor General in Council may appoint, representing the interests principally affected or having special knowledge of accountancy in India, to advise him on all matters of administration relating to accountancy, and to assist him in maintaining the standards of qualification and conduct of persons enrolled on the Register; and

(*f*) provide for the appointment of local accountancy boards at such centres as the Governor General in Council may select, to advise him and the Indian Accountancy Board on any matter that may be referred to them.

(*2B*) The holder of a certificate granted under this section shall, subject to any conditions or restrictions imposed by the certificate, be entitled to be appointed and act as an auditor of companies throughout British India."

Certificates granted before the commencement of this Act.

3. (*1*) All certificates granted by Local Governments before the commencement of this Act entitling the holders, and all declarations made before the commencement of this Act by the Governor General in Council entitling the members of any specified institution or association, to be appointed and to act as auditors of companies throughout British India, shall be deemed to be cancelled on the expiry of one year from the commencement of this Act :

Provided that the Governor General in Council may direct that any such certificate or declaration shall remain in force for a further period not exceeding one year.

(*2*) Persons holding restricted certificates granted by Local Governments before the commencement of this Act entitling them to act as auditors within a province may continue so to act, on such conditions as may be prescribed by the Governor General in Council in rules made by notification in the *Gazette of India* and after previous publication.

STATEMENT OF OBJECTS AND REASONS.

One of the main objects in passing the Indian Companies Act, 1913, was to ensure that the accounts of companies are properly audited, and section 144 of the Act deals with the appointment and qualification of auditors. Under sub-sections (*1*) and (*2*) of this section, the Local Government is the statutory authority for the grant of certificates to persons entitling them to act as auditors of public companies and to make rules providing for the grant of such certificates. The proviso to sub-section (*1*) also empowers the Governor General in Council to declare that the members of specified institutions or associations shall be entitled to be appointed and to act as auditors of companies throughout British India.

The existing arrangements were not intended to be more than temporary and transitional. It is doubtful whether the provisions of section 144 of the Indian Companies Act are in consonance with the classification of subjects under the existing constitution, and it is considered to be desirable that definite steps should now be taken to prepare a way for advance towards the ideal system of an autonomous association of accountants able to assume complete responsibility for the maintenance of the requisite standard of professional qualification, discipline and conduct of its members. Further, during the last few years a large increase has taken place not only in the number of joint stock companies in India, but also in the range of their activities, which frequently extend beyond the limits of a single province. Not only, therefore, is a high standard of professional qualification necessary but it is also necessary that this standard should be uniform throughout the country. With these objects in view the Government of India have caused the whole position to be re-examined and have prepared a comprehensive scheme, in consultation with Local Governments and commercial and other bodies interested. This scheme proposes to transfer the power to grant auditors' certificates and to make rules for the grant of such certificates from the Local Government to the Governor General in Council and provides for the appointment of an Indian Accountancy Board, consisting of persons representing the interests principally affected or having special knowledge of accountancy, to advise the Governor General in Council on all matters concerning the grant of auditors' certificates and to assist him in maintaining the standards of qualification and conduct required of auditors. It also provides for the appointment of local accountancy boards at important centres for the purpose of advising the Indian Accountancy Board and the Governor General in Council on any matters that may be referred to them.

The object of the Bill is to take the necessary power to give effect to this scheme. The more important changes which it is proposed to make in the law are :—

(1) the substitution in section 144 of the Governor General in Council for the Local Government as the statutory authority for granting auditors' certificates for making rules for the grant of such certificates ; and

(2) the abolition of the power to allow members of specified societies to act as auditors without certificates.

The following Bill was introduced in the Legislative Assembly on the 12th February, 1930 :—

L. A. BILL No. 8 OF 1930.

A Bill to amend the law relating to the fostering and development of the steel industry in British India for certain purposes

WHEREAS it is expedient to amend the law relating to the fostering and development of the steel industry in British India for the purposes hereinafter appearing : It is hereby enacted as follows :

Short title and commencement.

1. (*1*) This Act may be called the Steel Industry (Protection) Act, 1930

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint.

Amendment of Second Schedule to Act VIII of 1894.

2. In the Second Schedule to the Indian Tariff Act, 1894, there shall be made the amendments specified in the Schedule to this Act. VIII of 1894.

THE SCHEDULE

(*See section 2.*)

AMENDMENTS TO THE SECOND SCHEDULE TO THE INDIAN TARIFF ACT, 1894

1 In item No. 61, in the fifth sub-item (relating to IRON OR STEEL railway track material not otherwise specified), after the words "fastenings therefor", the words "other than tie-bars" shall be inserted.

2 In item No. 62, in the fifth sub-item (relating to STEEL, bar and rod), in part (*c*) thereof—

(*a*) for the entry "(*i*) rounds under ½ inch diameter", the entry "(*i*) rounds not over 7/16 inch diameter" shall be substituted ; and

(*b*) for the entry "(*ii*) squares under ½ inch side", the entry "(*ii*) squares not over 7/16 inch side" shall be substituted.

3. In item No. 150 -

(*a*) in part (*a*) of sub-item A, entry (*iii*) relating to spikes and tie-bars shall be omitted ;

(*b*) in part (*b*) of sub-item A, the words "spikes and tie-bars" shall be omitted ; and

(*c*) the following sub-item shall be added, namely :—

"D. Spikes and tie-bars—

of British manufacture	..	Rs. 26 per ton,
not of British manufacture	.	Rs. 37 per ton."

STATEMENT OF OBJECTS AND REASONS.

Under item No. 152 of the Tariff Schedule read with item No. 62 (*c*) (*i*) and (*ii*) thereof, round and square bars and rods of sizes ½ inch and above are liable to a protective duty of Rs. 26 or 37 per ton, according as they are of British manufacture or not. It has been represented to Government that steel bars of sizes of 15/32 inch and 31/64 inch, manufactured to special orders for use in substitution for ½ inch bars, are being imported with the object of evading the protective duty leviable on ½ inch bars. Statistics specially maintained to watch the imports of bars and rods show that the importations of these special sizes are increasing. As there is no stock size intermediate between ½ inch and 7/16 inch, it is evident that the object of these importations is as stated above and that as far as ½ inch bars and rods are concerned the intention of the Steel Industry

(Protection) Act, 1927, is being defeated to a considerable extent. It is accordingly proposed to bring all steel bars and rods over 7/16 inch under the protective duty so as to make the protection granted to ½ inch bars fully effective. Item 2 of the Schedule to the Bill provides for this.

2. The Tariff Board, in paragraph 159 of their Report regarding the continuance of protection to the steel industry, recommended that spikes and tie-bars should be subject to the same protective duties as bars so that the basic duty would be Rs. 26 per ton and the additional duty Rs. 11 per ton. Item No. 150 of the Indian Tariff Act which was inserted by the Steel Industry (Protection) Act, 1927, was intended to give effect to this recommendation. It has been held, however, that the wording of the entry does not in fact carry out the intention, and that tie-bars for cast iron sleepers are not subject to the protective duty leviable thereunder, but are assessable at 10 per cent. *ad valorem* as "fastenings" for such sleepers under item No. 61. Items 1 and 3 of the Schedule to the Bill accordingly amend items Nos. 61 and 150 of the Import Tariff, so as to give full effect to the scheme of protection adopted by the Legislature.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1930 :—

L. A. BILL No. 9 OF 1930.

A Bill further to amend the Indian Income-tax Act, 1922, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for the purpose hereinafter appearing; XI of 1922.
It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian Income-tax (Amendment) Act, 1930.

Amendment of section 10, Act XI of 1922.

2. In sub-section (*2*) of section 10 of the Indian Income-tax Act, 1922, after clause (*viii*) the following clause shall be inserted, namely :— XI of 1922.

"(*viiia*) any sum paid to an employee as bonus or commission for services rendered, where such sum would not have been payable to him as profits or dividend if it had not been paid as bonus or commission :

Provided that the amount of the bonus or commission is of a reasonable amount with reference to—

(*a*) the pay of the employee and the conditions of his service ;

(*b*) the profits of the business for the year in question ; and

(*c*) the general practice in similar business."

STATEMENT OF OBJECTS AND REASONS.

It has been held by a High Court that bonus, commission or other remuneration paid by an employer to an employee cannot be treated as a business expense and deducted from the employer's income in assessing it to income-tax if the amount of such bonus is dependent on the amount of the profits.

2. At the same time such payments are assessable to income-tax in the hands of the recipients. They are thus liable to double taxation.

3. Under section 60 the Government of India have therefore exempted such payments from income-tax in the hands of the employee where they cannot legally be deducted in assessing the income of the employer, subject to certain conditions.

4. It has been pointed out, however, that apart from technicalities such payments, if they represent genuine remuneration of an employee for services rendered, are rightly to be regarded as business expenses, and that the refusal to allow their deductions as such may cause hardship.

5. It is therefore proposed to amend the law so as to permit the deduction of such payments from the employer's income as a business expense. The Bill provides for this amendment with the safeguards necessary to obviate any abuse.

(*2*) Where an adjudication is annulled under sub-section (*1*), all sales and dispositions of property and payments duly made and all acts done by the Court whose order is annulled, or by the receiver appointed by it or other person acting under his authority, shall be valid, but the property vested in such Court or receiver shall vest in the official assignee, and the Court may make such direction in regard to the custody of such property as it thinks fit.

(*3*) Notice of the order annulling an adjudication under sub-section (*1*) shall be published in the local official gazette and in such other manner as may be prescribed."

Amendment of section 77, Act III of 1909.

4. In section 77 of the said Act,—

(*a*) in sub-section (*1*),—

(*i*) after the word "estates" the words "and such person or persons as he thinks fit to the office of deputy official assignee" shall be inserted, and

(*ii*) for the words "that office" the words "any of the said offices" shall be substituted ;

(*b*) after sub-section (*1*), the following sub-section shall be inserted, namely :—

"(*1A*) Subject to rules made under section 112, the deputy official assignee shall have all the powers and shall discharge all the duties and in exercise of such powers and in the discharge of such duties shall be subject to all the liabilities of the official assignee under this Act ;" and

(*c*) in sub-section (*2*), after the words "official assignee" the words "and every deputy official assignee" shall be inserted.

Amendment of section 112, Act III of 1909.

5. In sub-section (*2*) of section 112 of the said Act, after clause (*r*), the following clause shall be added, namely :—

"(*s*) the distribution of work between the official assignee and his deputy or deputies."

Amendment of section 53, Act V of 1920.

6. In section 53 of the Provincial Insolvency Act, 1920, after the words "is adjudged insolvent" the words "on a petition presented" shall be inserted. V of 1920.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remove certain defects in the Presidency-towns Insolvency Act, 1909, and the Provincial Insolvency Act, 1920, which have been recently brought to notice. The reasons for the several amendments proposed therein are explained in the appended Notes on Clauses.

NOTES ON CLAUSES.

Clauses 2, 4 and 5.—There is no specific provision in the Presidency-towns Insolvency Act, 1909, for the appointment of a deputy official assignee who could discharge all the duties and exercise all the functions of the official assignee. The insolvency work of the High Courts has increased since 1909 and the necessity of affording relief to the official assignee has been felt. It is therefore proposed to give power to the Chief Justices of the High Courts to appoint one or more deputy official assignees with the necessary powers.

Clause 3.—It has been held by some of the High Courts that section 18(*1*) of the Presidency-towns Insolvency Act does not empower a Judge of the High Court sitting in insolvency to stay proceedings pending in respect of the same debtor in a Court subject to the superintendence of the High Court under the Provincial Insolvency Act. The need for such power has been felt, particularly in Calcutta where a common practice prevails whereby debtors, who have carried on business in Calcutta, retire to some part of the province sufficiently remote and get an accommodating creditor to present a petition in insolvency against them in a District Court. This is done with the object of discouraging Calcutta creditors from prosecuting their claims or securing a searching investigation of the debtor's conduct and affairs. The clause gives power to the Judge of a High Court sitting in insolvency to stay or annul insolvency proceedings pending under the Provincial Insolvency Act in any Court subject to its superintendence in respect of the same debtor. It also empowers him to give necessary directions for the administration of the debtor's estate in the High Court.

Clause 6.—Section 53 of the Provincial Insolvency Act has given rise to conflicting judicial decisions as to whether the *terminus a quo* for the calculation of the period of two years referred to therein should be the date of the order of adjudication or the date of the presentation of the insolvency petition. The view that the *terminus a quo* should be the date of the presentation of the petition is in pursuance of the policy underlying the Act, and the contrary view leads to an abuse of the provision by dishonest and litigious debtors. The clause gives effect to the former view.
